## **The Father in Primitive Psychology** - Bronislaw Malinowski 2014-04-10

This vintage text contains Bronislaw Malinowski's seminal treatise, "The Father in Primitive Psychology". It is an analysis of the relationship of society and psychology in tribal communities, and explores ideas of sex and procreation, kinship, myth, social organisation, and more. This fascinating text will appeal to those with a keen interest in psychology, and it would make for a great addition to collections of allied literature. The chapters of this book include: "Kinship and Descent in a Matrilineal Society", "The Male and Female Organism and the Sexual Impulse in Native Belief", "Reincarnation and the Way to Life from the Spirit World", "The Ignorance of Physiological Paternity", "Words and Deeds in Testimony", etcetera. Bronislaw Kasper Malinowski (1884 - 1942) was a Polish anthropologist, commonly hailed as one of the most influential of the twentieth-century. This volume is being republished now in an affordable, modern edition, complete with a specially commissioned new biography of the author.

## **Sacrifice** - René Girard 2011-04

In *Sacrifice*, René Girard interrogates the Brahmanas of Vedic India, exploring coincidences with mimetic theory that are too numerous and striking to be accidental. Even that which appears to be dissimilar fails to contradict mimetic theory, but instead corresponds to the minimum of illusion without which sacrifice becomes impossible. The Bible reveals collective violence, similar to that which generates sacrifice everywhere, but instead of making victims guilty, the Bible and the Gospels reveal the persecutors of a single victim. Instead of elaborating myths, they tell the truth absolutely contrary to the archaic sense. Once exposed, the single victim mechanism can no longer function as the model for would-be sacrificers. Recognizing that the Vedic tradition also converges on a revelation that discredits sacrifice, mimetic theory locates within sacrifice itself a paradoxical power of quiet reflection that leads, in the long run, to the eclipse of this institution which is violent but nevertheless fundamental to the development of human culture. Far from unduly privileging the Western tradition and awarding it a monopoly on the knowledge and repudiation of blood sacrifice, mimetic analysis recognizes comparable, but never truly identical, traits in the Vedic tradition.

## **It's Our Ship** - Captain D. Michael Abrashoff 2008-05-12

Captain D. Michael Abrashoff, legendary commander of the USS Benfold, continues in the same vein of his bestselling book *IT'S YOUR SHIP* with the knowledge he's gained from his speaking to and advising some of the top business minds in the world. The story of Captain Abrashoff and his command of USS Benfold has become legendary inside and outside the Navy. By governing his ship with his unique management techniques, Abrashoff turned the Benfold into a model of naval efficiency, with amazing cost savings, the highest gunnery score in the Pacific Fleet, and a highly motivated and top performing crew. In *IT'S YOUR SHIP*, he first demonstrated how to bring his successful management techniques from the ship to the boardroom. Now, in his newest book *IT'S OUR SHIP*, in the same rugged, can-do voice, Abrashoff will focus on the leadership, motivational, and management insights and tips that he has learned from his last six years of addressing business and corporate audiences. Abrashoff's timely advice will be eminently prescriptive, and will feature anecdotes and insights from leaders of businesses large and small and from public and non-profit sectors.

## **Taming the Atom** - Hans Christian Von Baeyer 2000-01-01

Fascinating, accessible study recounts the process of discovery, from atomism of the Greeks to quantum revolutions of the 1920s and the theories and conjectures of today. Topics include components of the atom, quantum mechanics, atomic landscape, atoms in isolation, more. "Lucid and entertaining." — The New York Times Book Review.

## **Resurrection from the Underground** - René Girard 2012-01-01

In a fascinating analysis of critical themes in Feodor Dostoevsky's work, René Girard explores the implications of the Russian author's "underground," a site of isolation, alienation, and resentment. Brilliantly translated, this book is a testament to Girard's remarkable engagement with Dostoevsky's work, through which he discusses numerous aspects of the human condition, including desire, which Girard argues is "triangular" or "mimetic"—copied from models or mediators whose objects of desire become our own. Girard's interdisciplinary approach allows him to shed new light on religion, spirituality, and redemption in Dostoevsky's writing, culminating in a revelatory discussion of the author's spiritual understanding and personal integration. *Resurrection* is an essential and thought-provoking companion to Dostoevsky's *Notes from the Underground*.

## **Christianity and Democracy** - Jacques Maritain 2012-01-01

Few political philosophers have laid such stress upon the organic and dynamic characters of human rights, rooted as they are in natural law, as did the great 20th century philosopher, Jacques Maritain. Few Christian scholars have placed such emphasis upon the influence of evangelical inspiration, or of the Gospel message, upon the temporal order as has Maritain. As this important work reveals, the philosophy of Jacques Maritain on natural law and human rights is complemented by and can only be properly understood in the light of his teaching on Christianity and democracy and their relationship. Maritain takes pains to point out that Christianity cannot be made subservient to any political form or regime, that democracy is linked to Christianity and not the other way around, and that every just regime, such as the classic forms of monarchy, aristocracy and republic, is compatible with Christianity and in it a person is able to achieve some measure of fulfillment even in the temporal order. At the same time he argues his distinctive thesis

that personalist or organic democracy provides a fuller measure of freedom and fulfillment and that it emerges or begins to take shape under the inspiration of the Gospel. Even the modern democracies we do in fact have, with all their weaknesses, represent an historic gain for the person and they spring, he urges, from the very Gospel they so wantonly repudiate!

**The One by Whom Scandal Comes** - René Girard 2014-01-01

“Why is there so much violence in our midst?” René Girard asks. “No question is more debated today. And none produces more disappointing answers.” In Girard’s mimetic theory it is the imitation of someone else’s desire that gives rise to conflict whenever the desired object cannot be shared. This mimetic rivalry, Girard argues, is responsible for the frequency and escalating intensity of human conflict. For Girard, human conflict comes not from the loss of reciprocity between humans but from the transition, imperceptible at first but then ever more rapid, from good to bad reciprocity. In this landmark text, Girard continues his study of violence in light of geopolitical competition, focusing on the roots and outcomes of violence across societies latent in the process of globalization. The volume concludes in a wide-ranging interview with the Sicilian cultural theorist Maria Stella Barberi, where Girard’s twenty-first century emphases on the continuity of all religions, global conflict, and the necessity of apocalyptic thinking emerge.

**The Man of Numbers** - Keith Devlin 2012-11-01

In 1202, a 32-year old Italian finished one of the most influential books of all time, which introduced modern arithmetic to Western Europe. Devised in India in the seventh and eighth centuries and brought to North Africa by Muslim traders, the Hindu-Arabic system helped transform the West into the dominant force in science, technology, and commerce, leaving behind Muslim cultures which had long known it but had failed to see its potential. The young Italian, Leonardo of Pisa (better known today as Fibonacci), had learned the Hindu number system when he traveled to North Africa with his father, a customs agent. The book he created was Liber abbaci, the 'Book of Calculation', and the revolution that followed its publication was enormous. Arithmetic made it possible for ordinary people to buy and sell goods, convert currencies, and keep accurate records of possessions more readily than ever before. Liber abbaci's publication led directly to large-scale international commerce and the scientific revolution of the Renaissance. Yet despite the ubiquity of his discoveries, Leonardo of Pisa remains an enigma. His name is best known today in association with an exercise in Liber abbaci whose solution gives rise to a sequence of numbers - the Fibonacci sequence - used by some to predict the rise and fall of financial markets, and evident in myriad biological structures. In *The Man of Numbers*, Keith Devlin recreates the life and enduring legacy of an overlooked genius, and in the process makes clear how central numbers and mathematics are to our daily lives.

*lalylala's Beetles, Bugs and Butterflies* - Lydia Tresselt 2017-10-01

Hello bug lovers and crochet adventurers! Grab your research equipment (magnifying glass, flask of tea, crochet hook, scissors and yarn) and follow us into a world full of magic and science, a microcosm of tiny creatures and big dreams! In this book you will find not only a charming selection of crochet patterns to create scrabbling beetles, beautiful bugs and fluttering butterfly crochet amigurumi, but also a wonderful story to read out loud and ponder on: a tale about growing up; accepting change and the power of dreams. Watch tiny creatures hatching from their eggs, look on as they munch through a green world, and be astonished at their marvelous transformations when they finally slip out of their cocoons. The wings and hats are interchangeable so you can use the patterns in this book to create new outfits for your little insect friends. Give your caterpillar a new set of wings for every day of the week, or cover your beetle in the most colourful wing suits. Be inspired by nature to make creatures of your own creation. It's a great little world full of possibilities. We wish you lots of fun on your journey of discovery and learning!

*The Periodic Table* - Primo Levi 1996-10-01

The Periodic Table is largely a memoir of the years before and after Primo Levi’s transportation from his native Italy to Auschwitz as an anti-Facist partisan and a Jew. It recounts, in clear, precise, unflinching beautiful prose, the story of the Piedmontese Jewish community from which Levi came, of his years as a student and young chemist at the inception of the Second World War, and of his investigations into the nature of the material world. As such, it provides crucial links and backgrounds, both personal and intellectual, in the tremendous project of remembrance that is Levi’s gift to posterity. But far from being a prologue to his experience of the Holocaust, Levi’s masterpiece represents his most impassioned response to the events that engulfed him. The Periodic Table celebrates the pleasures of love and friendship and the search for meaning, and stands as a monument to those things in us that are capable of resisting and enduring in the face of tyranny.

*Black* - Michel Pastoureau 2009

About the history of the color black, its various meanings and representations.

*A History of Turin* - Anthony L. Cardoza 2006

*Disciple IV* - Abingdon Press 2005-05

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest -

home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

**We Philologists (Annotated)** - Friedrich Wilhelm Nietzsche 2021-01-29

Friedrich Wilhelm Nietzsche (October 15, 1844 - August 25, 1900) was German philosopher, poet, composer, cultural critic and classical philologist. He wrote critical texts on religion, morality, contemporary culture, philosophy and science, displaying a fondness for metaphor, irony and aphorism. Nietzsche's key ideas include the death of God, the Übermensch, the eternal recurrence, the Apollonian and Dionysian dichotomy, perspectivism and the will to power.

**De Ingeneis: Text** - Mariano Taccola 1984

English description: With the rediscovery of Mariano Taccola's technical manuscripts, a primary source has been found for drawings and texts in treatises and sketchbooks of Francesco di Giorgio Martini. Taccola first conceived a new subject in Renaissance literature: rational descriptions and illustrations of utilitarian structures built by master masons, carpenters, millwrights, and artisans in the service of military lords. Taccola's complex and fascinating manuscript is being published fully in facsimile. It was a gift to Johann Albrecht Widmannstetter who studied law (1533-1542) in Siena, probably at the Studio or University where Taccola had been secretary while writing in the building arts. The volume that Taccola entitled "Liber primus leonis" and "Liber secundis draconis" was modified into a "Notebook" when he, in 1435-1438, added many small sketches around each main drawing existing on a folio, and added quires of paper after Book II for additional and later drawings. This edition includes, in the editors' introduction, a short biography of Mariano Taccola, a history of his "Notebook", a description of its sections, an account of Taccola's contribution to the history of thechnology, and a study of his influence. Each of Taccola's several hundred drawings is identified, his Latin texts and notes are all transcribed and then translated into English. In one Appendix, the editors illustrate and interpret eight drawings identified as copies of Taccola's originals lost from his "Notebook", and a second Appendix concerns the designs of mills, pile-drivers, and water-supply devices of a Machine Complex that other engineers developed from prototypes in Taccola's "Notebook". German description: Mit der Wiederentdeckung der technischen Handschriften Mariano Taccolas wurde auch die Quelle für die Zeichnungen und Texte in den Abhandlungen und Skizzenbüchern Francesco di Giorgio Martinis entdeckt. Taccola behandelte als erster ein neues Thema in der Renaissanceliteratur: die rationale Beschreibung und Illustration von Zweckbauten. Das Werk, das Taccola ursprünglich als "Liber primus leonis" und "Liber secundus draconis" angelegt hatte, bekam nach und nach den Charakter eines Notizbuchs, als den Hauptzeichnungen mehrere kleinere Skizzen hinzugefügt und mehrere lose Blätter mit technischen Zeichnungen beigelegt wurden. Die Handschrift war ein Geschenk an Johann Albrecht Widmannstetter, der sich einige Jahre in Siena aufhielt. Aus der Sammlung dieses Humanisten gelangte sie anschliessend nach München. Die vorliegende Faksimileausgabe enthält neben einer kurzen Biographie Mariano Taccolas die Geschichte dieses Notizbuchs, eine Beschreibung der einzelnen Abschnitte sowie Taccolas Bedeutung für Wissenschaft und Technik der Renaissance. Jede der mehreren hundert Zeichnungen wird erläutert, Taccolas lateinische Beschreibungen der Maschinen werden in Transkription wiedergegeben und ins Englische übersetzt. Ein Anhang enthält die Zeichnungen zu Mühlen, Pfahlrammen und Entwürfen zu Wasserleitungssystemen, die später nach Taccolas Modellen aus dem "Notebook" entwickelt wurden.

**The Forgotten Revolution** - Lucio Russo 2013-12-01

The period from the late fourth to the late second century B. C. witnessed, in Greek-speaking countries, an explosion of objective knowledge about the external world. While Greek culture had reached great heights

in art, literature and philosophy already in the earlier classical era, it is in the so-called Hellenistic period that we see for the first time — anywhere in the world — the appearance of science as we understand it now: not an accumulation of facts or philosophically based speculations, but an organized effort to model nature and apply such models, or scientific theories in a sense we will make precise, to the solution of practical problems and to a growing understanding of nature. We owe this new approach to scientists such as Archimedes, Euclid, Eratosthenes and many others less familiar today but no less remarkable. Yet, not long after this golden period, much of this extraordinary development had been reversed. Rome borrowed what it was capable of from the Greeks and kept it for a little while yet, but created very little science of its own. Europe was soon smothered in the obscurantism and stasis that blocked most avenues of intellectual development for a thousand years — until, as is well known, the rediscovery of ancient culture in its fullness paved the way to the modern age.

Il ramo d'oro - James G. Frazer 2012-09-27

Studio sulla magia e sulla religione. Introduzione di Alfonso M. di Nola. Edizione integrale. Quest'opera, pubblicata per la prima volta nel 1890 in due volumi, si andò progressivamente sviluppando nelle mani dell'autore, venendo a costituire, nell'edizione definitiva del 1911-15, una monumentale raccolta di studi in dodici volumi sulle culture primitive. Qui ne proponiamo il compendio, concepito dall'autore stesso per una più agevole divulgazione del suo complesso pensiero, motivato fondamentalmente da una teoria evoluzionistica della storia. Un'antica leggenda italica - in ricordo del famoso ramo d'oro che Enea colse prima di entrare nel regno dell'Ade - voleva «re del bosco» colui il quale si fosse dimostrato capace di uccidere il sacerdote del santuario di Diana a Nemi e di strappare un ramo dall'albero che si trovava nel recinto. Frazer fu particolarmente incuriosito dal racconto e volle indagarne le origini, prendendo in esame miti, pratiche religiose e magiche, e riti di ogni tempo e luogo. James G. Frazer nacque nel 1854 a Glasgow. Considerato tra i fondatori della moderna antropologia e al tempo stesso scrittore di riconosciuto talento, si dedicò allo studio delle culture più diverse, da quelle primitive a quelle classiche. Nel 1908 gli fu assegnata la prima cattedra mondiale di antropologia sociale. Dopo Il ramo d'oro scrisse Totemism and Exogamy (1910), FolkLore in the Old Testament (1918) e The Magical Origin of Kings (1920). Morì a Cambridge nel 1941.

*The Other Side* - Alfred Kubin 2000

Alfred Kubin (1877-1959) was one of the major graphic artists of the 20th century who was widely known for his illustrations of writers of the fantastic such as Balzac, E. I. A. Hoffmann, Gustav Meyrink and Edgar Allan Poe. In his combination of the darkly decadent, the fantastic and the grotesque, in his evocations of dream and nightmare, his creation of an atmosphere of mystery and fear he resembles Mervyn Peake. *The Other Side* tells of a dream kingdom which becomes a nightmare, of a journey to Pearl, a mysterious city created deep in Asia, which is also a journey to the depths of the subconscious. Or as Kubin himself called it, 'a sort of Baedeker for those lands which are half known to us'.

*Christianity, Truth, and Weakening Faith* - Gianni Vattimo 2010-02-16

The debate over the place of religion in secular, democratic societies dominates philosophical and intellectual discourse. These arguments often polarize around simplistic reductions, making efforts at reconciliation impossible. Yet more rational stances do exist, positions that broker a peace between relativism and religion in people's public, private, and ethical lives. *Christianity, Truth, and Weakening Faith* advances just such a dialogue, featuring the collaboration of two major philosophers known for their progressive approach to this issue. Seeking unity over difference, Gianni Vattimo and René Girard turn to Max Weber, Eric Auerbach, and Marcel Gauchet, among others, in their exploration of truth and liberty, relativism and faith, and the tensions of a world filled with new forms of religiously inspired violence. Vattimo and Girard ultimately conclude that secularism and the involvement (or lack thereof) of religion in governance are, in essence, produced by Christianity. In other words, Christianity is "the religion of the exit from religion," and democracy, civil rights, the free market, and individual freedoms are all facilitated by Christian culture. Through an exchange that is both intimate and enlightening, Vattimo and Girard share their unparalleled insight into the relationships among religion, modernity, and the role of Christianity, especially as it exists in our multicultural world.
