[Operating Instructions](#) - Anne Lamott 2011-02-09

With the same brilliant combination of humor and warmth she brought to bestseller Bird by Bird, Anne Lamott gives us a smart, funny, and comforting chronicle of single motherhood. It's not like she's the only woman to ever have a baby. At thirty-five. On her own. But Anne

Lamott makes it all fresh in her now-classic account of how she and her son and numerous friends and neighbors and some strangers survived and thrived in that all important first year. From finding out that her baby is a boy (and getting used to the idea) to finding out that her best friend and greatest supporter Pam will die of cancer (and not getting used to that idea), with a generous amount of wit and faith (but very little piousness), Lamott narrates the great and small events that make up a woman's life. "Lamott has a conversational style that perfectly conveys her friendly, self-deprecating humor." -- Los Angeles Times Book Review "Lamott is a wonderfully lithe writer Anyone who has ever had a hard time facing a perfectly ordinary day will identify." -- Chicago Tribune

What the media does not want you to know though is that producing flatulent gas is simply a natural bodily function because the industry wants to sell you shitty chemicals that'll cover up your body's most natural body functions. Don't say Adios to all these pant ripping clouds and don't worry about the media or society because all you care about is 1. eating some raw fruits and veggies because it is healthy, 2. keeping a proper diary about every bottom belching tune you are blowing out into this wonderful world, and 3. enjoying your fart chronicle souvenirs that you can take a look at from time to time with a good old cup of joe. What more do you need in order to be relaxed, happy, and healthy? Nothing really?! Right! So get over with what your significant other might say and dig into the wonderful world of blowing them out - the smellier the merrier!
