What Matters Most: Family, Friends, and Foes - Owen Watson

2015-11-20

The content within What Matters Most: Family, Friends, and Foes is derived from true life experiences that I have lived, witnessed, and gleaned from throughout my life as a child, adult, minister, U.S. Postal employee, and U.S. Navy Sailor. I must say that I am very thankful for the ability to share these treasured philosophical inspirations to reach and uplift others beyond the brink of those "what's going on?" moments. As the title implies, the sources of inspiration for this project are my family, friends, and foes. One philosophical key that I hold to is that viewing circumspetly, you can surely learn something from everyone. As useful signage from God, I believe everyone and all circumstances hold a level of value to help make each of us a better person. My hope for this book is that each reader will find their answer to what matters most and press forward in God's joy!

What Works in Girls' Education - Gene B Sperling 2015-09-29

Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the

idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

[What is The Family of Law?](#) - Alan Brown 2019-02-07

This book argues that the legal understanding of 'family' in the UK continues to be underpinned by the idealised image of the 'nuclear family', premised upon the traditional, gendered roles of 'father as breadwinner' and 'mother as homemaker'. This examination of the law's model of the 'family' has been prompted by the substantial reforms that have taken place in family law in recent decades, and the significant evolution in social attitudes and familial practices that has occurred in parallel. Throughout the book, the influence of the nuclear family is noted in several different contexts: various specific legal definitions of 'family', the legal regulation of adult, conjugal relationships, the attribution of legal parenthood and the construction of the role of the 'parent' within the law. Ultimately, this book argues that while these reforms have resulted in additional categories of relationship coming to be situated within the nuclear family model, there has not, as yet, been any fundamental alteration of the underpinning concept of the nuclear family itself. This book concludes by considering the possibilities offered beyond the 'nuclear family'; exploring the reconceptualising of the legal understanding of 'family' around alternative and potentially 'radical' models of 'family'.
