Comprehensive and insightful, the book includes writings on casting as it relates to Art History (by Suzanne Ramljak), Large-Scale Metal (by Joseph Becherer), Ceramics (by Ezra Shales), Glass (by Susie J. [The Bookshop Book](#) - Jen Campbell 2014-10-02

We're not talking about rooms that are just full of books. We're talking about bookshops in barns, disused factories, converted churches and underground car parks. Bookshops on boats, on buses, and in old run-down train stations. Fold-out bookshops, undercover bookshops, this-is-the-best-place-I've-ever-been-to-bookshops. Meet Sarah and her Book Barge sailing across the sea to France; meet Sebastien, in Mongolia, who sells books to herders of the Altai mountains; meet the bookshop in Canada that's invented the world's first antiquarian book vending machine. And that's just the beginning. From the oldest bookshop in the world, to the smallest you could imagine, *The Bookshop Book* examines the history of books, talks to authors about their favourite places, and looks at over three hundred weirdly wonderful bookshops across six continents (sadly, we've yet to build a bookshop down in the South Pole). *The Bookshop Book* is a love letter to bookshops all around the world. -- "A good bookshop is not just about selling books from shelves, but reaching out into the world and making a difference." David Almond (*The Bookshop Book* includes interviews and quotes from David Almond, Ian Rankin, Tracy Chevalier, Audrey Niffenegger, Jacqueline Wilson, Jeanette Winterson and many, many others.)

[What You Have Heard Is True](#) - Carolyn Forché 2020-02-11

2019 National Book Award Finalist "Reading it will change you, perhaps forever." —San Francisco Chronicle "Astonishing, powerful, so important at this time." --Margaret Atwood *What You Have Heard is True* is a devastating, lyrical, and visionary memoir about a young woman's brave choice to engage with horror in order to help others. Written by one of the most gifted poets of her generation, this is the story of a woman's radical act of empathy, and her fateful encounter with an intriguing man who changes the course of her life. Carolyn Forché is twenty-seven when the mysterious stranger appears on her doorstep. The relative of a friend, he is a charming polymath with a mind as seemingly disordered as it is brilliant. She's heard rumors from her friend about who he might be: a lone wolf, a communist, a CIA operative, a sharpshooter, a revolutionary, a small coffee farmer, but according to her, no one seemed to know for certain. He has driven from El Salvador to invite Forché to visit and learn about his country. Captivated for reasons she doesn't fully understand, she accepts and becomes enmeshed in something beyond her comprehension. Together they meet with high-ranking military officers, impoverished farm workers, and clergy desperately trying to assist the poor and keep the peace. These encounters are a part of his plan to educate her, but also to learn for himself just how close the country is to war. As priests and farm-workers are murdered and protest marches attacked, he is determined to save his country, and Forché is swept up in his work and in the lives of his friends. Pursued by death squads and sheltering in safe houses, the two forge a rich friendship, as she attempts to make sense of what she's experiencing and establish a moral foothold amidst profound suffering. This is the powerful story of a poet's experience in a country on the verge of war, and a journey toward social conscience in a perilous time.

Aristotle on the Concept of Shared Life - Sara Brill 2020-05-21

According to the terms of Aristotle's Politics, to be alive is to instantiate a form of rule. In the growth of plants, the perceptual capacities and movement of animals, and the impulse that motivates thinking, speaking, and deliberating Aristotle sees the working of a powerful generative force come to expression in an array of forms of life, and it is in these, if anywhere, that one could find the resources needed for a philosophic account of the nature of life as such. Aristotle on the Concept of Shared Life explores this intertwining of power and life in Aristotle's thought, and argues that Aristotle locates the foundation of human political life in the capacity to share one's most vital activities with others. A comprehensive study of the relationality which shared life reveals tells us something essential about Aristotle's approach to human political phenomena; namely, that they arise as forms of intimacy whose political character can only be seen when viewed in the context of Aristotle's larger inquiries into animal life, where they emerge not as categorically distinct from animal sociality, but as intensifications of it. Tracing the human capacity to share life thus illuminates the interrelation between the zoological, ethical, and political lenses through which Aristotle pursues his investigation of the polis. In following this connection, this volume also examines — and critically evaluates — the reception of Aristotle's political thought in some of the most influential concepts of contemporary critical theory.

Dancing in the Mosque - Homeira Qaderi 2020-12-01

A People Book of the Week & a Kirkus Best Nonfiction of the Year An exquisite and inspiring memoir about one mother's unimaginable choice in the face of oppression and abuse in Taliban-controlled Afghanistan. In the days before Homeira Qaderi gave birth to her son, Siawash, the road to the hospital in Kabul would often be barricaded because of the frequent suicide explosions. With the city and the military on edge, it was not uncommon for an armed soldier to point his gun at the pregnant woman's bulging stomach, terrified that she was hiding a bomb. Frightened and in pain, she was once forced to make her way on foot. Propelled by the love she held for her soon-to-be-born child, Homeira walked through blood and wreckage to reach the hospital doors. But the joy of her beautiful son's birth was soon overshadowed by other dangers that would threaten her life. No ordinary Afghan woman, Homeira refused to cower under the strictures of a misogynistic social order. Defying the law, she risked her freedom to teach children reading and writing and fought for women's rights in her theocratic and patriarchal society. Devastating in its power, Dancing in the Mosque is a mother's searing letter to a son she was forced to leave behind. In telling her story—and that of Afghan women—Homeira challenges you to reconsider the meaning of motherhood, sacrifice, and survival. Her story asks you to consider the lengths you would go to protect yourself, your family, and your dignity.

Acclaimed writer Margo Rabb's Kissing in America is "a wonderful novel about friendship, love, travel, life,

hope, poetry, intelligence, and the inner lives of girls," raves internationally bestselling author Elizabeth Gilbert (Eat, Pray, Love). In the two years since her father died, sixteen-year-old Eva has found comfort in reading romance novels—118 of them, to be exact—to dull the pain of her loss that's still so present. Her romantic fantasies become a reality when she meets Will, who can relate to Eva's grief. Unfortunately, after Eva falls head-over-heels for him, he picks up and moves to California with barely any warning. Not wanting to lose the only person who has been able to pull her out of sadness—and, perhaps, her first shot at real love—Eva and her best friend, Annie, concoct a plan to travel to the west coast. As they road trip across America, Eva and Annie confront the complex truth about love. In this honest and emotional journey that National Book Award Finalist Sara Zarr calls "gorgeous, funny, and joyous," readers will experience the highs of infatuation and the lows of heartache as Eva contends with love in all of its forms. Ten Below Zero - Whitney Barbetti 2014-08-25

"In here," he said, pushing on the skin above my heart, "you're ten below zero. And you're closer to death than I am." My name is Parker. My body is marked with scars from an attack I don't remember. I don't want to remember. I choose to live my life by observation, not through experience. While people are laughing and kissing and connecting, I'm in the corner. Watching them live. I'm indifferent to everything, everyone. The only emotion I feel with any kind of depth is annoyance, and I feel it often. A text message sent to the wrong number proves to be my undoing. His name is Everett, but I call him rude. He's pushy, he's arrogant, he crowds my personal space, and worst of all: he makes me feel. He chooses to wear all black, all the time, as if he's waiting to attend a funeral. Probably because he is. Everett is dying. And he's spending his final days living, truly living. In doing so, he's forcing me to feel, to heal. To come face to face with the demons I suppressed in my memory. He hurts me, he fulfills me, he completes me. And still, he's dying.

Baker set out to track the daily comings and goings of a pair of peregrine falcons across the flat fen lands of eastern England. He followed the birds obsessively, observing them in the air and on the ground, in pursuit of their prey, making a kill, eating, and at rest, activities he describes with an extraordinary fusion of precision and poetry. And as he continued his mysterious private quest, his sense of human self slowly dissolved, to be replaced with the alien and implacable consciousness of a hawk. It is this extraordinary metamorphosis, magical and terrifying, that these beautifully written pages record.

Urban Raptors - Clint W. Boal 2018-06-12

Raptors are an unusual success story of wildness thriving in the heart of our cities—they have developed substantial populations around the world in recent decades. But there are deeper issues around how these birds make their urban homes. New research provides insight into the role of raptors as vital members of the urban ecosystem and future opportunities for protection, management, and environmental education. A cutting-edge synthesis of over two decades of scientific research, *Urban Raptors* is the first book to offer a complete overview of urban ecosystems in the context of bird-of-prey ecology and conservation. This comprehensive volume examines urban environments, explains why some species adapt to urban areas but others do not, and introduces modern research tools to help in the study of urban raptors. It also delves into climate change adaptation, human-wildlife conflict, and the unique risks birds of prey face in urban areas before concluding with real-world wildlife management case studies and suggestions for future research and conservation efforts. Boal and Dykstra have compiled the go-to single source of information on urban birds of prey. Among researchers, urban green space planners, wildlife management agencies, birders, and informed citizens alike, *Urban Raptors* will foster a greater understanding of birds of prey and an increased willingness to accommodate them as important members, not intruders, of our cities.
