## **German Jews and the Persistence of Jewish Identity in Conversion**

- Angela Kuttner Botelho 2021-08-23

This book explores the fraught aftermath of the German Jewish conversionary experience through the story of one family as it grapples with the meaning of its Jewish origins in a post-Holocaust, post-conversionary milieu. Utilizing archival family texts and multiple interviews spanning three generations, beginning with the author's German Jewish parents, 1940s refugees, and engaging the insights of contemporary scholars, the book traces the impact of a contested Jewish identity on the deconstruction and reconstruction of the Jewish self. The Holocaust as post-memory and the impact of the German Jewish culture personified by the author's parents leads to a retrieval of a lost Jewish identity, postmodern in its implications, reinforcing the concept of Judaism as ultimately a family affair. Focusing on the personal to illuminate a complex historical phenomenon, this book proposes a new cultural history that challenges conventional boundaries of what is Jewish and what is not.

[Decoding the Past](#) - Peter Loewenberg 1996-01-01

In *Decoding the Past*, Peter Loewenberg has collected eleven of his brilliant essays on psychohistory, a discipline that has emerged from the synthesis of traditional historical analysis and clinical psychoanalysis. He surveys this relatively new field-its methods and its problems-to show the special contributions that psychoanalysis can make to history. He then further explores the psychohistorical method by applying it to studies of personality, cultures, groups, and mass movements, demonstrating that psychohistory offers one of the most powerful of interpretive approaches to history.

[Out of Body Experiences](#) - Gene Schmitz 2012-05-21

You've almost certainly pondered the question of whether or not life goes

on after death. You may very well have also wondered whether the human soul exists as a separate entity from the physical body--and if so, can it ever leave the body before to death? Growing up as an Oklahoma farmboy in the forties and fifties, Gene Schmitz didn't think about any of these issues at all--that is, not until he began having out-of-body experiences in his teens. On an almost nightly basis, Gene's soul would float up near the ceiling of his bedroom and watch dozens of other spirits float in and out of the room, each on a silent mission of its own. Below, Gene could see his own body, sound asleep in bed. As Gene grew into adulthood, his nocturnal soul travels greatly expanded in their scope, taking him to other planes and other planets. Gene's soul witnessed visions of the afterlife, received messages from departed family members, learned of life on other planets, battled demonic spirits of evil, and even came face to face with Jesus. This book not only tells the full story of Gene's life, it also includes a detailed conversation with an angelic being who speaks through superchannel Robert Shapiro to reveal the meaning behind Gene's out-of-body experiences and his life's purpose. In the process of explaining the twists and turns of Gene's life, this angelic being also unveils some surprising truths about the connection between the body and the soul that apply to all of us.

Race under Reconstruction in German Cinema - Angelica Fenner  
2011-06-11

Race Under Reconstruction in German Cinema investigates postwar racial formations via a pivotal West German film by one of the most popular and prolific directors of the era. The release of Robert Stemmle's *Toxi* (1952) coincided with the enrolment in West German schools of the first five hundred Afro-German children fathered by African-American occupation soldiers. The didactic plot traces the ideological conflicts that arise among members of a patrician family when they encounter an Afro-German child seeking adoption, herein broaching issues of integration at a time when the American civil rights movement was gaining momentum

and encountering violent resistance. Perceptions of 'Blackness' in *Toxi* demonstrate continuities with those prevailing in Wilhelmine Germany, but also signal the influence of American social science discourse and tropes originating in icons of American popular culture, such as Uncle Tom's Cabin, *Birth of a Nation*, and several Shirley Temple films. By applying a Cultural Studies approach to individual film sequences, publicity photos, and press reviews, Angelica Fenner relates West German discourses around race and integration to emerging economic and political anxieties, class antagonism, and the reinstatement of conventional gender roles. The film *Toxi* is now available on DVD from the DEFA Film Library.

**Here, Right Matters** - Alexander Vindman 2022-06-14

Retired U.S. Army Lieutenant Colonel Alexander Vindman, who found himself at the center of a firestorm for his decision to report the infamous phone call that led to presidential impeachment, tells his own story for the first time. *Here, Right Matters* is a stirring account of Vindman's childhood as an immigrant growing up in New York City, his career in service of his new home on the battlefield and at the White House, and the decisions leading up to, and fallout surrounding, his exposure of President Trump's abuse of power. 0900, Thursday, July 25, 2019: President Trump called Ukraine's President Zelensky, supposedly to congratulate him on his recent victory. In the months that followed, the American public would only learn what happened on that call because Alexander Vindman felt duty-bound to report it up the chain of command: that the President of the United States had extorted a foreign ally to damage a political challenger at home. Vindman's actions and

subsequent testimony before congress would lead to Trump's impeachment and affirm Vindman's belief that he had done the right thing in the face of intense pressure to stay silent. But it would come at an enormous cost, straining relationships with colleagues, superiors, and even his own father, and eventually end his decorated career in the US Army, by a Trump administration intent on retribution. Here, *Right Matters* is Vindman's proud, passionate, and candid account of his family, his career, and the moment of truth he faced for his nation. As an immigrant, raised by a father who fled the Soviet Union in pursuit of a better life for his children, Vindman learned about respect for truth throughout his education and military service. As this memoir makes clear, his decision to speak up about the July 25th call was never a choice: it was Vindman's duty, as a naturalized citizen and member of the armed forces. In the wake of his testimony, he would endure furious partisan attacks on his record and his loyalty. But far louder was the extraordinary chorus of support from citizens who were collectively intent on reaffirming an abiding American commitment to integrity. In the face of a sure-fire career derailment and public excoriation, Vindman heeded the lessons from the people and institutions who instilled in him the moral compass and the courage to act decisively. Like so many other American immigrant families, the Vindmans had to learn to build a life from scratch and take big risks to achieve important goals. Here, *Right Matters* is about the quiet heroes who keep us safe; but, above all, it is a call to arms for those who refuse to let America betray its true self.

**50 Women against Hitler** - Stephan D. Yada-Mc Neal 2018-07-13  
Women in the resistance is to this day a barely treated topic of the historiography of World War II. But many successful actions of the Allies, the knowledge of German activities would not have been possible without the perilous use of women. Whether as spies, as couriers of important news, in the supply and accommodation of resistance fighters or refugee soldiers of the Allies, without the energetic help of women many lives would have been lost. This book tries to use examples of women from different countries to record how active and sometimes very effective their work was. But this book also commemorates those women who lost

their lives in this fight against oppression, occupation and barbarism.

[Great German Composers](#) - George Titus Ferris 1895

[East of the Oder](#) - Luise Urban 2013-05-15

Luise Urban was born in 1933 into a world about to be turned upside down. Her family lived east of the river Oder. Crucially, her family were not Nazi Party members and suffered as a result. As the Third Reich crumbled and the Red Army advanced, she was one of 15 million Germans trapped in a war zone during the terrible winter of 1945. Weakened by starvation and forced to flee their home, it was only the bravery of Luise's mother that saved the family from total destruction. The Oder-Neisse line (Oder-Neiße-Grenze) is the German-Polish border drawn in the aftermath of the war. The line primarily follows the Oder and Neisse rivers to the Baltic Sea west of the city of Stettin. All pre-war German territory east of the line and within the 1937 German boundaries was discussed at the Potsdam Conference (July-August 1945). Germany was to lose 25% of her territory under the agreement. Crucially, some might say (including most certainly Luise Urban) callously, Stalin, Churchill and Truman also agreed to the expulsion of the German population beyond the new eastern borders.

This meant that almost all of the native German population was killed, fled or was driven out by force. In East of the Oder, Luise relives that harrowing time, written in memory of her mother, to whom she owes her life. It is the story of a child, but it is not a story for children.

**Walk With A Purpose** - John Volken 2022-11-30  
Horatio Alger wrote in the nineteenth century about impoverished boys rising from humble backgrounds to lives of achievement through hard work, determination, courage, and honesty. Alger should have met John Volken. He would have loved him, as many of us do. John's story begins as a child in an orphanage in the Soviet Union occupied East Germany, it continues as a young man washing dishes for 25¢ an hour in Canada, and culminates with him amassing a fortune as a businessman... That is where the venerable American writer might have ended this story and where most men would have settled into a life of golf. But that's exactly where the best and most exciting part of John Volken's story begins... It's all here, and then some! Carried Away - Alice Munro 2006-09-26

WINNER OF THE NOBEL PRIZE® IN LITERATURE 2013 *Carried Away* is a dazzling selection of stories—seventeen favorites chosen by the author from across her distinguished career. With an Introduction by Margaret Atwood. Alice Munro has been repeatedly hailed as one of our greatest living writers, a reputation that has been growing for years. The stories brought together here span a quarter century, drawn from some of her earliest books, *The Beggar Maid* and *The Moons of Jupiter*, through her recent best-selling collection, *Runaway*. Here are such favorites as “Royal Beatings” in which a young girl, her father, and stepmother release the tension of their circumstances in a ritual of punishment and reconciliation; “Friend of My Youth” in which a woman comes to understand that her difficult mother is not so very different from herself; and “The Albanian Virgin,” a romantic tale of capture and escape in Central Europe that may or may not be true but that nevertheless comforts the hearer, who is on a desperate adventure of her own. Munro’s incomparable empathy for her characters, the depth of her understanding of human nature, and the grace and surprise of her narrative add up to a richly layered and capacious fiction. Like the World War I soldier in the title story, whose letters from the front to a small-town librarian he doesn’t know change her life forever, Munro’s unassuming characters insinuate themselves in our hearts and take permanent hold.

**Autoethnography as Method** - Heewon Chang 2016-07-01

This methods book will guide the reader through the process of conducting and producing an autoethnographic study through the understanding of self, other, and culture. Readers will be encouraged to follow hands-on, though not prescriptive, steps in data collection,

analysis, and interpretation with self-reflective prewriting exercises and self-narrative writing exercises to produce their own autoethnographic work. Chang offers a variety of techniques for gathering data on the self—from diaries to culture grams to interviews with others—and shows how to transform this information into a study that looks for the connection with others present in a diverse world. She shows how the autoethnographic process promotes self-reflection, understanding of multicultural others, qualitative inquiry, and narrative writing. Samples of published autoethnographies provide exemplars for the novice researcher to follow.

**The River Bottoms** - Tammy Tucker 2012-08-17

"If you truly want to feel, not just know, what it was like to grow up in the middle of nowhere in the 1930s and '40s, as the son of an alcoholic and abusive father, this fictional story, based on the real-life experiences of the author's father, won't disappoint." --Ric Cox, former Senior Staff Editor, *The Reader's Digest* Growing up in the time of the depression was hard on all Americans. But doing so under the ruling hand of a violently abusive father was at best, impossible. Will Mueller, his mother, brother and sister were scarred physically and emotionally. His brother and he would wander the river bottoms around where they lived to explore and have great adventures to escape the tyranny of their home life. Will experienced more as a young child than most people do in their whole lives. He met very interesting people, both good and bad. The one thing that kept the family together was his mother’s faith. She instilled that faith into her young son. Will’s mother was a rock for him and his siblings. Alcohol usually fueled his father’s tirades but his father drank all of the time. There was little relief from the violence. As a grown man, Will travels back to where it all began and thanked God that he made it.

*The Life of (John) Conrad Weiser, the German Pioneer, Patriot, and Patron of Two Races* - Clement Zwingli Weiser 1899

John Conrad Weiser was among very few colonial settlers to achieve fluency in Native American languages, working for decades as an interpreter and peacemaker between European settlers and native tribes. The services rendered by Conrad Weiser were immensely

important to the colonists of North America. He spent time living with the Maqua tribe, learning their customs and culture, and achieving supreme command of their language. When disputes arose, Weiser was called upon - on several occasions, his mediation and diplomacy prevented disagreements from descending into violence. In maturity, he served as Superintendent of the Indian Bureau; an agency which promoted peaceful cooperation between Native Americans and white Europeans. This biography charts Weiser's humble beginnings in Germany, his boyhood emigration to America, and his first communications and residence with the Maqua. His greatest successes as interpreter and promoter of peaceful understanding are related in detail. Strongly revered for decades after his death in 1760, George Washington himself revisited Weiser's gravesite in 1793 to remember his contributions. Weiser remains a pivotal figure in the history of colonial America, and his house in Womelsdorf, Pennsylvania is today a museum dedicated to study of the era. The author of this biography, Clement Zwingli Weiser, was a descendent keen on family research, who lived at the turn of the 20th century.

**The Hidden Children of France, 1940-1945** - Danielle Bailly  
2010-07-01

Interviews with eighteen Jewish "hidden children" of France and Belgium, telling the story of their survival during World War II. The history of France's "hidden children" and of the French citizens who saved six out of seven Jewish children and three-fourths of the Jewish adult population from deportation during the Nazi occupation is little known to American readers. In *The Hidden Children of France*, Danielle Bailly (a hidden child herself whose family travelled all over rural France before sending her to live with strangers who could protect her) reveals the stories behind the statistics of those who were saved by the extraordinary acts of ordinary people. Eighteen former "hidden children" describe their lives before, during, and after the war, recounting their incredible journeys and expressing their deepest gratitude to those who put themselves at risk to save others. Danielle Bailly is one of the surviving "hidden children." She was Professor of Linguistics at Paris

Diderot University until 1998. Since then she has worked as a consultant and researcher. Betty Becker-Theye is Professor Emeritus and former Dean of the College of Fine Arts and Humanities at the University of Nebraska at Kearney and Adjunct Professor of Modern Languages at the University of Maine Hutchinson Center. She is the author of *The Seducer as Mythic Figure* in Richardson, Laclos, and Kierkegaard.

*Why English?* - Pauline Bunce 2016-06-10

This book explores the ways and means by which English threatens the vitality and diversity of other languages and cultures in the modern world. Using the metaphor of the Hydra monster from ancient Greek mythology, it explores the use and misuse of English in a wide range of contexts, revealing how the dominance of English is being confronted and counteracted around the globe. The authors explore the language policy challenges for governments and education systems at all levels, and show how changing the role of English can lead to greater success in education for a larger proportion of children. Through personal accounts, poems, essays and case studies, the book calls for greater efforts to ensure the maintenance of the world's linguistic and cultural diversity.

*SILENT NO MORE* - Erika Vora 2012-07-18

This book reveals untold living history of thirty ethnic German survivors who finally broke their silence and talked about their heart-breaking experiences of forced deportation, expulsion, and flight during WWII and its aftermath. They were deported from their homes in Romania and Yugoslavia; expelled from their homes in Czechoslovakia; and had to flee from their homes in Poland and all the Eastern provinces of Germany. These ethnic German survivors tell of their weeks-long treacherous over-

crowded cattle-train transports, back-breaking work in forced labor camps, starvation and homelessness during bitter cold winters, witnessing mass rapes and beatings to death. They are among the fifteen million Germans who were expelled from their homes in East-Central

Europe during the largest forced mass migration of the twentieth century. These now aged survivors, who experienced humanities darkest side but have no malice toward their perpetrators, exemplify the unbreakable and indelible human spirit.
