A CBC CANADA READS 2015 SELECTION! FINALIST FOR THE 2013 GOVERNOR GENERAL'S LITERARY AWARD FOR FRENCH-TO-ENGLISH TRANSLATION Tom and Charlie have decided to live out the remainder of their lives on their own terms, hidden away in a remote forest, their only connection to the outside world a couple of pot growers who deliver whatever they can't eke out for themselves. But one summer two women arrive. One is a young photographer documenting a series of catastrophic forest fires that swept Northern Ontario early in the century; she's on the trail of the recently deceased Ted Boychuck, a survivor of the blaze. And then the elderly aunt of the one of the pot growers appears, fleeing one of the psychiatric institutions that have been her home since she was sixteen. She joins the men in the woods and begins a new life as Marie-Desneige. With the photographer's help, they find Ted's series of paintings about the fire, and begin to decipher the dead man's history. A haunting meditation on aging and self-determination, *And the Birds Rained Down*, originally published in French as *Il pleuvait des oiseaux*, was the winner of the Prix des Cinq Continents de la Francophonie, the first Canadian title to win this honour. It was winner of the Prix des lecteurs Radio-Canada, the Prix des collégiens du Québec, the Prix Ringuet 2012 and a finalist for the Grand Prix de la ville de Montréal. *The Botany and Chemistry of Hallucinogens* - Richard Evans Schultes 1980

By Richard Evans Schultes, Harvard University, Cambridge, Massachusetts, and Albert Hofmann, Basel, Switzerland. With Forewords by I. Newton Kugelmass and Henrich Kluver. The Second Edition of this book encompasses all of the advances that have been made in this field since publication of the original text. Newly discovered hallucinogenic plants have been incorporated into the discussions along with new information on some well-known drugs. The authors continue to focus on the botany and chemistry of hallucinogens, although they also consider ethnobotanical, historical, pharmacological and psychological aspects. Initial chapters delineate definition, botanical distribution, and structural types of hallucinogenic plants. Plants of known, possible and dubious hallucinogenic potential are then covered in separate sections. The bibliography for this new edition has been enlarged to accommodate all of the recent activity in botanical and chemical investigation of psychoactive plants. Readers will also appreciate the excellent illustrations that accompany the text.

*The Contemporary Spanish-American Novel* - Will H. Corral 2013-09-26

The Contemporary Spanish-American Novel provides an accessible introduction to an important World literature. While many of the authors covered—Aira, Bolaño, Castellanos Moya, Vázquez—are gaining an increasing readership in English and are frequently taught, there is sparse criticism in English beyond book reviews. This book provides the guidance necessary for a more sophisticated and contextualized

understanding of these authors and their works. Underestimated or unfamiliar Spanish American novels and novelists are introduced through conceptually rigorous essays. Sections on each writer include: \*the author's reception in their native country, Spanish America, and Spain \*biographical history \*a critical examination of their work, including key themes and conceptual concerns \*translation history \*scholarly reception The Contemporary Spanish-American Novel offers an authoritative guide to a rich and varied novelistic tradition. It covers all demographic areas, including United States Latino authors, in exploring the diversity of this literature and its major themes, such as exile, migration, and gender representation.

*The Baron in the Trees* - Italo Calvino 2017

"Cosimo di Rondó, a young Italian nobleman of the eighteenth century, rebels against his parents by climbing into the trees and remaining there for the rest of his life. He adapts efficiently to an existence in the forest canopy he hunts, sows crops, plays games with earth-bound friends, fights forest fires, solves engineering problems, and even manages to have love affairs. From his perch in the trees, Cosimo sees the Age of Enlightenment pass by and a new century dawn. Long considered one of Calvino's finest works, *The baron in the trees* exemplifies this brilliant writer's gift for fantasy."--Page [4] of cover.

**Tanegashima - The Arrival of Europe in Japan** - Olof G. Lidin 2003-12-16

The year 1543 marked the beginning of a new global consciousness in Japan with the arrival of shipwrecked Portuguese merchants on Tanegashima Island in southern Japan. Other Portuguese soon followed and Japan became aware of a world beyond India. After the merchants came the first missionary Francis Xavier in 1549, beginning the Christian century in Japan. This is not a new story, but it is the first time that Japanese, Portuguese and other European accounts have been brought together and presented in English. Their arrival was recorded by the Japanese in Tanegashima kafu, the Teppoki and the Kunitomo teppoki, here translated and presented together with European reports. Includes maps, and Portuguese and Japanese illustrations.

**Confrontations** - Jacques Vallee 2015-06-01

ASCIENTIFICDETECTIVESTORY In *Confrontations*, the second volume of his *Alien Contact Trilogy*, Dr. Jacques Vallee personally investigates forty astonishing UFO cases from around the world. He finds it shocking that professional scientists have never seriously examined this material. This book is about the hopes, experiences, and the frustrations of a scientist who has gone into the field to investigate a bizarre, seductive, and often terrifying phenomenon reported by many witnesses as a contact with an alien form of intelligence. Dr. Jacques Vallee was born in France, where he received a Bachelor of Science degree in mathematics from the Sorbonne and a Master of Science in astrophysics from the

University of Lille. He began his professional life as an astronomer at the Paris Observatory in 1961. While on the staff of the French Space Committee, he witnessed the destruction of the tracking tapes of unknown objects orbiting the earth, initiating a lifelong interest in the UFO phenomenon. Vallee arrived in the U.S. in 1962, worked in astronomy at the University of Texas at Austin, and wrote two highly respected scientific examinations arguing for the Extraterrestrial Hypothesis (ETH) of UFO origins. In 1967, he received a Ph.D. in computer science from Northwestern University, where he became a close associate of J. Allen Hynek, then scientific consultant for the U.S. Air Force on Project Blue Book. Eventually concluding that the ETH was too narrow to encompass the burgeoning UFO data, he conducted his own extensive global research, resulting in the "Alien Contact Trilogy." Dr. Vallee is presently a venture capitalist living in San Francisco. His website is [www.jacquesvallee.com](http://www.jacquesvallee.com)."

**On Ugliness** - Umberto Eco 2011

Beauty and ugliness are two sides of the same coin; by ugliness we usually mean the opposite of beauty and we often define the first in order to understand the nature of the second. But the various depictions of ugliness over the centuries are richer and more unpredictable than is commonly thought. The striking images and anthological quotations in *On Ugliness* lead us on an extraordinary journey through the passions, terrors and nightmares of almost three thousand years, where acts of rejection go hand in hand with touching instances of empathy, and an aversion to deformity is accompanied by seductive violations of all classical canons. With his characteristic wit and erudition, Umberto Eco draws on examples in art and literature from ancient times to the present day. Abundantly illustrated with demons, madmen, vile enemies and disquieting presences, with freaks and the living dead, *On Ugliness* is conceived for a vast and diverse readership, and is an invaluable companion volume to *On Beauty*.

*The New Science of Giambattista Vico* - Giambattista Vico 2016-04-15

A pioneering treatise that aroused great controversy when it was first published in 1725, Vico's *New Science* is acknowledged today to be one of the few works of authentic genius in the history of social theory. It represents the most ambitious attempt before Comte at comprehensive science of human society and the most profound analysis of the class struggle prior to Marx.

*Identified Flying Objects* - Dr. Michael P. Masters 2019-03-22

Could "UFOs" and "Aliens" simply be us, but from the future? This provocative new book cautiously examines the premise that extraterrestrials may instead be our distant human descendants, using the anthropological tool of time travel to visit and study us in their own hominin evolutionary past. Dr. Michael P. Masters, a professor of biological anthropology specializing in human evolutionary anatomy, archaeology, and biomedicine, explores how the persistence of long-term biological and cultural trends in human evolution may ultimately result in us becoming the ones piloting these disc-shaped craft, which are likely the very devices that allow our future progeny to venture backward across the landscape of time. Moreover, these extraterrestrials are ubiquitously described as bipedal, large-brained, hairless, human-like beings, who communicate with us in our own languages, and who possess technology advanced beyond, but clearly built upon, our own. These accounts, coupled with a thorough understanding of the past and modern human condition, point to the continuation of established

biological and cultural trends here on Earth, long into the distant human future.

*Cave and Cosmos* - Michael Harner 2013-04-09

In 1980, Michael Harner blazed the trail for the worldwide revival of shamanism with his seminal classic *The Way of the Shaman*. In this long-awaited sequel, he provides new evidence of the reality of heavens. Drawing from a lifetime of personal shamanic experiences and more than 2,500 reports of Westerners' experiences during shamanic ascension, Harner highlights the striking similarities between their discoveries, indicating that the heavens and spirits they've encountered do indeed exist. He also provides instructions on his innovative core-shamanism techniques, so that readers too can ascend to heavenly realms, seek spirit teachers, and return later at will for additional healing and advice. Written by the leading authority on shamanism, *Cave and Cosmos* is a must-read not only for those interested in shamanism, but also for those interested in spirituality, comparative religion, near-death experiences, healing, consciousness, anthropology, and the nature of reality. Praise for Michael Harner and *The Way of the Shaman* "What Yogananda did for Hinduism and D. T. Suzuki did for Zen, Michael Harner has done for shamanism—namely, bring the tradition and its richness to Western awareness." —from *Higher Wisdom*, by Roger Walsh and Charles S. Grob "Wonderful, fascinating.... Harner really knows what he's talking about." —Carlos Castaneda, best-selling author of *The Teachings of Don Juan* and *The Active Side of Infinity* "An intimate and practical guide to the art of shamanic healing and the technology of the sacred. Michael Harner is not just an anthropologist who has studied shamanism; he is an authentic white shaman." —Stanislav Grof, author of *The Adventure of Self-Discovery* "Harner has impeccable credentials, both as an academic and as a practicing shaman. Without doubt (since the recent death of Mircea Eliade) the world's leading authority on shamanism." —Nevill Drury, author of *The Elements of Shamanism* "Michael Harner is a great shaman. He also proves that a person can be both a scientist and a shaman." —Bo Bair Rinchinov, Siberian Buryat shaman

**The Scent of the Moon** - Selene Calloni Williams

2016-07-18T13:35:00+02:00

Kazimir, Svetlana and Anastasia are real characters. They live in a very remote part of the Siberian steppe. Kazimir is a white shaman with extraordinary power, a healer whose fame has reached as far as Kazakhstan, Mongolia and Moscow. Svetlana is a black shaman, able to travel through the underworld, the realm of the invisible, of ancestors, of dreams, of the soul, and take others with her, on extraordinary shamanic voyages. Anastasiya, Svetlana's niece, is one of the very few shamans in the world who masters the art of both white and black shamanism. By whoever knows her, or even just heard of her, she is considered a reincarnation of the Princess of Altay. Selene Calloni Williams and her son Michelangelo have met these three shamans by chance during one of their extraordinary research trips, while attempting to reach the burial site of the Princess of Altay. To gain the three shamans' trust, Selene and Michelangelo have visited them on several occasions since, even in winter when the steppe is freezes at minus 40 degrees. One day, Svetlana decided to entrust them with a "tale of power". A "tale of power" has the ability of communicating images containing new possibilities of thought and action. In this world everything is imagination and nothing which hasn't been imagined before can happen. For example, how could the first man have hunted the first mammoth, or the first tyrannosaurus have devoured the first velociraptor, if within instinct the image of hunt hadn't existed? In order for behaviour to exist

there always must be a guiding image. These are the images which the ancients addressed as gods and which psychoanalysts define as archetypes: the original forms of all experiences. Shamans are able to converse with gods. They are bards, storytellers, they know tales able to bring images into existence, create possibilities which were previously unexplored, and thus can solve otherwise insurmountable problems. These are not just any stories; they're "tales of power". This book tells the story of the passionate love which bonds a boy and a girl, an old man and an old woman, tells of eagles and underworlds, describes the "shamanic journey" and the triumph of love over fear and death. It is not just any story; it shares active secrets, treasures, like magic diamonds which enter the body between one page and the other, between an adventure and the other. This book can be read at the blink of an eye, the same blink with which the great spirit of the Black Eagle, the lord of the dead, will carry you down to the underworld, to then take you back, changed forever, to your life: it's magic, it's poetry.

**Facial Reflexology - Dien Chan Zone** - Beatrice Moricoli and Vittorio Bergagnini 2016-11-24

"The key to health is on your face and in your hands" This book presents a self-care method unique in its genre, which offers extraordinary, sometimes amazing and often immediate results for all kinds of disharmony in the body. The method began life in 1980s Vietnam - like many important discoveries, a result of war and necessity - independent of resource availability. It was developed by a group of acupuncturists to put healing in the hands of the masses by replacing needles with equally effective blunt rounded tools. It is the most recent reflexology on the planet and has nothing to do with other oriental techniques related to the face. Today 'Dien Chan' is a popular and accepted method of healthcare in its home country and part of their official system. However, it is the work of two self declared Italian 'free-sprits', over the past twenty years, which has suitably translated the technique and advanced it to meet the needs of modern Westerners. No longer a painful stimulation of pre-defined points; it has evolved to a relaxing massage of zones and individual, personalised points. 'Dien Chan Zone' incorporates simplified principles and teachings of Traditional Chinese Medicine, protocols for allergies and intolerances, a unique Facial-Cranial reflexology and a beauty treatment to tone muscle and regulate skin function. It is the authors' overriding intention to facilitate learning and to make this method accessible to everyone. In this book they share full instructions

for self-treatment which they know present a great frontier of freedom, and the medicine of the future. Contains 95 full colour maps Beatrice Moricoli, founder of S.I.R.F.A./A.I.R.F.I. in Milan, is the first female teacher of Dien Chan (Zone) in Italy, but for many years has practiced also as a therapist and teacher of Reiki, Shiatsu, Tui Na, Chinese Medicine and 'The Blowing Technique'. Vittorio Bergagnini, founder of S.I.R.F.A./A.I.R.F.I. in Milan, is a teacher of Dien Chan Zone as well as Tai Chi Chuan, Reiki, Foot Reflexology and Wung Chun.

A cold case reaches from Cape Town's shadowy past to bucolic Bordeaux, France, in this thriller by the Barry Award-winning author of *Thirteen Hours*. When a cold case dossier lands on Captain Benny Griessel's desk, he and his partner Vaughn Cupido, fellow member of the Hawks elite police unit in South Africa, reluctantly set to work reviewing the evidence. Did ex-cop Johnson Johnson simply disappear on the world's most luxurious train line—or was he murdered? Two fellow travelers might have the answers Griessel and Cupido need, but they too seem to have disappeared, and the few clues that exist suggest a cover-up. Meanwhile, Daniel Darret has settled into a new, quiet life in Bordeaux, far from his revolutionary past in South Africa. But now a man from that past has reappeared. And he wants to commission Daniel's unique skills one more time. As the two storylines come crashing together, Griessel and Cupido are left uncertain of the truth—and of their own future.
