The Impact of Empire - Michael Riley 2008-07-01

'This is History!' is the Schools History Project's radical new scheme of work for Key Stage 3 National Curriculum history. It offers a varied, relevant and challenging scheme of work for the whole Key Stage 3 history programme of study. 'The Impact of Empire' tells the story of the British Empire from the 1480s to the present. The British Empire is an important yet under-taught topic in British schools. This book aims to redress that balance by providing intriguing and relevant case studies, telling powerful stories and providing activities which engage pupils with the key ideas and which make this vast topic accessible to all teachers and all pupils whatever their ability. Through a combination of in-depth and overview units the book covers 500 years of history, from the story of Britain's first colony of Roanoke in North America (a failure) to the powerful legacy of colonialism in contemporary multicultural Britain. Flexibility: each of the units are relatively self-contained allowing them to be slotted into the other history units in your scheme of work as required, or the units can be used together as a whole course to last half a term or more. The content coverage is broad: it touches on North America, the Caribbean, West Africa, the Middle East and India. Separate units investigate the slave trade, the scramble for Africa and transportation to Australia. There are three linked units telling the story of British involvement in India from the early traders through the East India Company to the story of Gandhi and decolonisation in the 1940s. It examines both the impact of the Empire on Britain itself and its impact on the colonised nations. The skills focus is on interpretations: how we can tell the story of something so vast and varied; and why people differ in their interpretations of the Empire. This Teacher's Resource Book provides worksheets and teaching notes to support all the main tasks and further activities to help you vary the learning styles.

Access to History: Civil Rights in the USA 1865-1992 for OCR Second Edition - Nicholas Fellows 2019-12-16

Exam board: OCR Level: AS/A-level Subject: History First teaching: September 2015 First exams: Summer 2016 (AS); Summer 2017 (A-level) Put your trust in the textbook series that has given thousands of A-level History students deeper knowledge and better grades for over 30 years. Updated to meet the demands of today's A-level specifications, this new generation of Access to History titles includes accurate exam guidance based on examiners' reports, free online activity worksheets and contextual information that underpins students' understanding of the period. - Develop strong historical knowledge: in-depth analysis of each topic is both authoritative and accessible - Build historical skills and understanding: downloadable activity worksheets can be used independently by students or edited by teachers for classwork and homework - Learn, remember and connect important events and people: an introduction to the period, summary diagrams, timelines and links to additional online resources support lessons, revision and coursework - Achieve exam success: practical advice matched to the requirements of your A-level specification incorporates the lessons learnt from previous exams - Engage with sources, interpretations and the latest historical research: students will evaluate a rich collection of visual and written materials, plus key debates that examine the views of different historians

Learning to Teach History in the Secondary School - Terry Haydn 2014-10-10

'An excellent companion to Learning to Teach in Secondary School ... full of good ideas and better advice ... Mentors will certainly want to use it, and so, I'm sure, will the rest of the history department ... Make sure they buy one, and keep your copy under lock and key.' - Michael Duffy, Times Educational Supplement 'A very well written and readable book. Overall, this is an excellent book and one which students and teachers outwith England would find a valuable addition to their library.' - Scottish Association of Teachers of History, Resources Review 'This book is without question the standard text for the history PGCE market.' - Dr Ian Davies, University of York, on the first edition. Learning to Teach History in the Secondary School provides an accessible introduction to teaching and learning history at secondary level. Underpinned by a

theoretical perspective and backed up by the latest research, it encourages student teachers to develop a personal approach to teaching history. This fourth edition has been thoroughly updated for the new curriculum, with a brand new chapter on subject knowledge and a new section on action research to better support those reflecting on and developing their own practice. It provides an array of references and materials that give a sound theoretical foundation for the teaching of history, including weblinks to further resources, while a range of tasks will enable students to put their learning into practice in the classroom. Practical advice is combined with reference and access to a wide range of recent and relevant research in the field of history education, to support Masters Level research and aid reflective practice. Key issues covered include: The benefits of learning history Planning The use of language and strategies for teaching Inclusion Technology in history teaching Assessment Continuing professional development Offering comprehensive and accessible support to becoming a history teacher, this book remains an invaluable resource for all training and newly qualified history teachers.

The Early Tudors - David Rogerson 2001

This text offers an investigation into the history of Britain under the early Tudors from Henry VII to Mary, revealing the nature, achievements and failures of the dynasty.

Boost student performance: Suitably challenging tasks encourage high achievers to excel at GCSE while clear explanations make key concepts accessible to all. Rediscover your enthusiasm for source work: *Castles and the Anglo-Norman World* - John A. Davies 2016-05-31

Castles and the Anglo-Norman World is a major new synthesis drawing together a series of 20 papers by 26 French and English specialists in the field of Anglo-Norman studies. It includes summaries of current knowledge and new research into important Norman castles in England and Normandy, drawing on information from recent excavations. Sections consider the evolution of Anglo-Norman castles, the architecture and archaeology of Norman monuments, Romanesque architecture and artifacts, the Bayeux Tapestry and the presentation of historic sites to the public. These studies are presented together with a consideration of the 12th century cross-Channel Norman Empire, which provides a broader context. This work is the result of a conference held at Norwich Castle in 2012, which was part of a collaboration between professionals in the fields of archaeology, architecture, museums and heritage, under the banner of the Norman Connections Project.

King John - Marc Morris 2015-10-15

King John is one of those historical characters who needs little in the way of introduction. If readers are not already familiar with him as the tyrant whose misgovernment gave rise to Magna Carta, we remember him as the villain in the stories of Robin Hood. Formidable and cunning, but also cruel, lecherous, treacherous and untrusting. Twelve years into his reign, John was regarded as a powerful king within the British Isles. But despite this immense early success, when he finally crosses to France to recover his lost empire, he meets with disaster. John returns home penniless to face a tide of criticism about his unjust rule. The result is Magna Carta - a ground-breaking document in posterity, but a worthless piece of parchment in 1215, since John had no intention of honoring it. Like all great tragedies, the world can only be put to rights by the tyrant's death. John finally obliges at Newark Castle in October 1216, dying of dysentery as a great gale howls up the valley of the Trent.

OCR A Level History: Britain 1930–1997 - Mike Wells 2015-06-26

This is an OCR endorsed resource. Build strong subject knowledge and skills in A Level History using the in-depth analysis and structured support in this tailor-made series for OCR's British period studies and enquiries. - Develops the analytical skills required to succeed in the period study by organising the narrative content around the key issues for students to explore - Enhances understanding of the chosen historical period, supplying a wealth of extracts and sources that offer opportunities to practise the evaluative skills needed for the enquiry - Progressively improves study skills through developmental activities and advice on answering practice exam questions - Helps students to review, revise and reflect on the course material through chapter summaries and revision activities that consolidate topic knowledge - Equips students with transferable critical thinking skills, presenting contrasting academic opinions that encourage A Level historians to make informed judgements on major debates Each title in the OCR A Level History series contains one or two British period studies and its associated enquiry, providing complete support for every option in Unit Group 1.

The Norman Conquest - Marc Morris 2022-09-13

A riveting and authoritative history of the single most important event in English history: The Norman Conquest. An upstart French duke who sets out to conquer the most powerful and unified kingdom in Christendom. An invasion force on a scale not seen since the days of the Romans. One of the bloodiest and most decisive battles ever fought. This new history explains why the Norman Conquest was the most significant cultural and military episode in English history. Assessing the original evidence at every turn, Marc Morris goes beyond the familiar outline to explain why England was at once so powerful and yet so vulnerable to William the Conqueror's attack. Morris writes with passion, verve, and scrupulous concern for historical accuracy. This is the definitive account for our times of an extraordinary story, indeed the pivotal moment in the shaping of the English nation.

OCR GCSE History SHP: Crime and Punishment C. 1250 to Present - Michael Riley 2016-05-27

understanding - Develop students' sense of period: the visually stimulating text design uses memorable case studies, diagrams, infographics and contemporary photos to bring fascinating events and people to life *1066* - David Howarth 2002

While the date 1066 is familiar to almost everybody as the year of the Norman conquest of England, few can place the event in the context of the dramatic year in which it took place. In this book, David Howarth attempts to bring alive the struggle for the succession to the English crown from the death of Edward the Confessor in January 1066 to the Christmas coronation of Duke William of Normandy. There is an almost uncanny symmetry, as well as a relentlessly exciting surge, of events leading to and from the Battle of Hastings.

Russia Under Tsarism and Communism 1881-1953 - Chris Corin 2011-01-01

This volume is a comprehensive advanced core text on Russia from 1881 to the death of Stalin. It is a second edition of the bestselling Communist Russia under Lenin and Stalin. This second edition is extended to cover the Tsarist pre-revolutionary period. It offers students an insight into - the nature of Tsarist rule in Russia and the causes and consequences of the 1905 revolution; - the causes and consequences of the Russian Revolution in 1917; - the nature, the achievements and failures of Lenin's and Stalin's Communist regimes; - the ongoing historiographical debate about this period and the current reinterpretations of it. Other improvements for this second edition include more streamlined coverage of Stalin's foreign policy.

Tourism Employment - Michael Riley 2002-02-12

This book is an attempt to understand tourism employment in a holistic way. Using ideas from labour economics, work psychology and industrial sociology the authors look at tourism employment in both its workplace context and its wider economic and social environment and attempt to tell a coherent story. Both behavioural and economic perspectives are used to address questions that are salient to manpower planning, education planning and tourism management. By examining the diversity and commonality within occupations against the background of a dynamic labour market the text develops themes that contribute to our understanding of the behaviour of workers and managers in the industry.

The Corruption of the Curriculum - Shirley Lawes 2007-01-01

The authors of this book examine the British National Curriculum from several different perspectives and concentrate on various subject areas. The uniting theme between these essays is the argument that the subjects in the school curriculum used to be regarded as discrete areas of knowledge which would be imparted to pupils by teachers motivated by a love of learning, but that this has not been enough for recent governments who see schools as a means of promoting social and political goals that may or may not relate to traditional academic disciplines. The contributors to this book argue that we need to return to the traditional view of education as a means of transmitting a body of knowledge from one generation to the next, and that academic rigour and respect for the professionalism of teachers should take precedence over political manipulation of the curriculum.

AQA GCSE History: Norman England, 1066-1100 - Helena Clarke 2016-10-10

Create a stimulating, well-paced teaching route through the 2016 GCSE History specification using this tailor-made series that draws on a legacy of market-leading history textbooks and the individual subject
