Comparisonitis - Melissa Ambrosini 2021-05-11

Multiple bestselling author Melissa Ambrosini (*Mastering Your Mean Girl*, *Open Wide*, *PurposeFULL*) and host of the #1 podcast *The Melissa Ambrosini Show* puts the condition of Comparisonitis under the microscope, unpacking the symptoms, and offering practical tips you can start using immediately to break the cycle of comparison, free up mental bandwidth, and live life on your own terms.

When you cure Comparisonitis, you will... • Be free to live your life for you (no one else) • Feel peace from within • Experience genuine happiness • Truly appreciate your body and life • Free up SO much mental bandwidth for things you LOVE • Quit beating yourself up • Have more energy to go after the things that truly matter to you • Experience a radical shift towards authenticity • Be a better friend, partner, parent, family member, colleague, human • Free yourself from expectations • Unleash the courage to go after your

dreams • Unstifle your creativity • Feel more liberated than you've ever felt in your life • And much more It creeps up on you without warning—perhaps while chatting with a friend, scrolling through social media, or even just while walking down the street. All it takes is the hint of someone doing or having something you perceive as "better" than you, and it hits. A feeling takes over—intense, blinding, gutting. Your brain starts spinning with toxic thoughts about yourself (or others), and you're left feeling ashamed, guilty, and even worthless. It's called comparisonitis. And if you've suffered from it, you're NOT alone. Comparisonitis is a contagious, socially transmitted condition that occurs when you compare yourself to others so frequently and fiercely that you're left paralyzed, with your confidence in tatters and your self-worth plummeting. It may sound trivial, but this affliction can have serious adverse effects on our mental health,

leading to depression, anxiety, overthinking, and regret. To make matters worse, our comparison culture is only expanding. Thanks to social media, we have more opportunities to compare ourselves than ever before, and even kids are falling into the trap. Described as a "self-help guru" by Elle magazine, Melissa has experienced the effects of comparisonitis first hand, having worked extensively in industries like acting, modeling and dancing where comparison culture is not only rampant but openly encouraged. Melissa knows all too well how comparisonitis is infecting our minds and hurting our hearts, and in this book, she'll help you heal from this disease, liberate your headspace, and raise your self-worth so radically that you'll never let comparison rob you of your joy and happiness again. The Boy Crisis - Warren Farrell, Ph.D. 2018-03-13 What is the boy crisis? It's a crisis of education. Worldwide, boys are 50 percent less likely than girls to meet basic

proficiency in reading, math, and science. It's a crisis of mental health. ADHD is on the rise. And as boys become young men, their suicide rates go from equal to girls to six times that of young women. It's a crisis of fathering. Boys are growing up with less-involved fathers and are more likely to drop out of school, drink, do drugs, become delinquent, and end up in prison. It's a crisis of purpose. Boys' old sense of purpose—being a warrior, a leader, or a sole breadwinner—are fading. Many bright boys are experiencing a "purpose void," feeling alienated, withdrawn, and addicted to immediate gratification. So, what is The Boy Crisis? A comprehensive blueprint for what parents, teachers, and policymakers can do to help our sons become happier, healthier men, and fathers and leaders worthy of our respect.

The Male Brain - Louann Brizendine, MD 2010-03-23
From the author of the groundbreaking New York Times bestseller *The Female Brain*, here is the eagerly awaited follow-up book that demystifies the puzzling male brain. Dr. Louann Brizendine,

the founder of the first clinic in the country to study gender differences in brain, behavior, and hormones, turns her attention to the male brain, showing how, through every phase of life, the "male reality" is fundamentally different from the female one. Exploring the latest breakthroughs in male psychology and neurology with her trademark accessibility and candor, she reveals that the male brain: -is a lean, mean, problem-solving machine. Faced with a personal problem, a man will use his analytical brain structures, not his emotional ones, to find a solution. -thrives under competition, instinctively plays rough and is obsessed with rank and hierarchy. -has an area for sexual pursuit that is 2.5 times larger than the female brain, consuming him with sexual fantasies about female body parts. - experiences such a massive increase in testosterone at puberty that he perceives others' faces to be more aggressive. *The Male Brain* finally overturns the

stereotypes. Impeccably researched and at the cutting edge of scientific knowledge, this is a book that every man, and especially every woman bedeviled by a man, will need to own.

cultural context in which Mars and Venus was created.

Words of Hope - Craig Turner 2014

"What do you fear? Can a child who is loved as much as I love you perish in the arms of a Father who is omnipotent?" - Our Lord's words to St. Margaret Mary Alacoque If you met God today, what would He say to you? You bring to God your suffering: physical ailments, emotional pain, fears and doubts, and more. You ask Him to deliver you from these difficulties. What might He say to you in reply? *Words of Hope* is a collection of powerful dialogues and sayings given by Jesus to four gifted saints from the Middle Ages and Renaissance: Teresa of Ávila, Catherine of Genoa, Gertrude the Great and Margaret Mary Alacoque. These souls possessed the gift of "locution," the ability to hear the actual voice of God. Each of these wise and holy women has left us accounts of their

conversations with God, especially during times of struggle. In *Words of Hope*, you'll discover what Our Lord told them - words that you, too, can take to heart. • "While one is alive, progress doesn't come from trying to enjoy Me more, but by trying to do My will." • "The kingdom of Heaven cannot be obtained without suffering." • "The more you pray for anyone, the happier they will become, because no prayer of faith can remain unfruitful, although you do not know in what manner the fruit will come." • "I love holy water, and I have so great an affection for the cross that I cannot refrain from uniting Myself closely with those who bear it like Me and for the love of Me." In this book, author Craig Turner collects into categories the locutions received by these saints, words from God that are meant not only for these four souls, but for all mankind. *Words of Hope* is a powerful work that shows God's amazing love and compassion for each and every person.

John Gray's work has helped countless readers improve and even save their relationships. But as society evolves, relationships do, too. It's time to move beyond Mars and Venus, toward a new relationship model for modern couples. Today, men and women are no longer trapped by rigid societal roles. Now more than ever, we have the freedom to be our authentic selves. Women can access their masculine side,

and men can embrace their feminine side. This new freedom is a good thing, but it also brings new challenges. Men and women still need the right tools and skills to help build stronger relationships. While previous generations sought "role mate" relationships, based on the more rigid gender roles of the time, today's couples need a new kind of relationship: a "soul mate" relationship. These more emotionally satisfying relationships require a deeper understanding of our partners' individual needs. In *Beyond Mars and Venus*, Gray teaches you how to strengthen your bond and grow in love together, so you and your loved one can meet each other's needs in the best way possible, bringing you lasting happiness and a fulfilling partnership.

Mars and Venus in the Workplace - John Gray 2002

Men Are from Mars, Women Are from Venus - John Gray

1993-04-23

Popular marriage counselor and seminar leader John Gray provides a unique, practical and proven way for men and women to communicate and relate better by acknowledging the differences between them. Once upon a time Martians and Venusians met, fell in love, and had happy relationships together because they respected and accepted their differences. Then they came to earth and amnesia set in: they forgot they were from different planets. Using this metaphor to illustrate the commonly occurring conflicts between men and women, Gray explains how these differences can come between the sexes and prohibit mutually fulfilling loving relationships. Based on years of successful counseling of couples, he gives advice on how to counteract these differences in communication styles, emotional needs and modes of behavior to promote a greater understanding between individual partners. Gray shows how men and women react differently in

conversation and how their relationships are affected by male intimacy cycles ("get close", "back off"), and female self-esteem fluctuations ("I'm okay", "I'm not okay"). He encourages readers to accept the other gender's particular way of expressing love, and helps men and women learn how to fulfill each other's emotional needs. With practical suggestions on how to reduce conflict, crucial information on how to interpret a partner's behavior and methods for preventing emotional "trash from the past" from invading new relationships, *Men Are from Mars, Women Are from Venus* is a valuable tool for couples who want to develop deeper and more satisfying relationships with their partners.

The Myth of Mars and Venus - Deborah Cameron 2007

Popular assumptions about gender and communication--famously summed up in the title of the massively influential 1992 bestseller *Men Are From Mars, Women Are From Venus*--can have unforeseen but far-reaching consequences in many spheres of life, from attitudes to the phenomenon of "date-rape" to expectations of

achievement at school, and potential discrimination in the work-place. In this wide-ranging and thoroughly readable book, Deborah Cameron, Rupert Murdoch Professor of Language and Communication at Oxford University and author of a number of leading texts in the field of language and gender studies, draws on over 30 years of scientific research to explain what we really know and to demonstrate how this is often very different from the accounts we are familiar with from recent popular writing. Ambitious in scope and exceptionally accessible, *The Myth of Mars and Venus* tells it like it is: widely accepted attitudes from the past and from other cultures are at heart related to assumptions about language and the place of men and women in society; and there is as much similarity and variation within each gender as between men and women, often associated with social roles and relationships. The author goes on to consider the influence of Darwinian

theories of natural selection and the notion that girls and boys are socialized during childhood into different ways of using language, before addressing problems of "miscommunication" surrounding, for example, sex and consent to sex, and women's relative lack of success in work and politics. Arguing that what linguistic differences there are between men and women are driven by the need to construct and project personal meaning and identity, Cameron concludes that we have an urgent need to think about gender in more complex ways than the prevailing myths and stereotypes allow.
