**The New Map of the World** - Giuseppe Mazzotta 1999

For today's readers, the great Italian philosopher of history Giambattista Vico (1668-1744) can be startlingly relevant to the social and educational divisiveness we confront at century's end: here Giuseppe Mazzotta, one of the leading Italianists in the United States, shows how much Vico, properly read, can bring to an understanding of contemporary social problems. To explore Vico's body of thought in all its monumental complexity, Mazzotta highlights the place of poetry, or "writerliness," in Vico's educational project, which links literature, history, religion, philosophy, and politics. The New Map of the World is the first book since Benedetto Croce's *The Philosophy of G. B. Vico* (1911) to interpret the immense range of Vico's creativity. Beginning with Vico's autobiography, Mazzotta explains that Vico's heroic attempt to unite the arts and sciences was meant to offer a desperately needed political unity to modern society. In contrast to past thematic studies of Vico that focus on a single one of his ideas, *The New Map of the World* explores the vital interaction of the issues that fascinated him: his educational and political project, his sense of the necessity for a new way of conceiving authority, and his belief in the power of poetry. Mazzotta ends by examining Vico's awareness of the tragic limits of politics itself. Originally published in 1998. **1910** - Thomas Harrison 1996-04-12

"1910 stands out as a model of interdisciplinary and comparative study. . . . It brilliantly illustrates the complexity of a crucial period in European culture . . . focusing in particular on the intellectual intricacies of Mitteleuropa on the eve of World War I and of the dissolution of the Austro-Hungarian empire."—Lucia Re  
"Compellingly original. . . . In Harrison's work, Michelstaedter and his confreres (Campana, Slataper, Kokoschke, Rilke, Kandinsky, Lukàcs, Trakl, et al.) turn out to be considerably more fascinating and more emblematic of their time than anyone has been able to perceive before."—Gregory Lucente, University of Michigan

*Essays on Ancient and Modern Judaism* - Arnaldo Momigliano 1994-08-09

Momigliano acknowledged that his Judaism was the most fundamental inspiration for his scholarship, and the writings in this collection demonstrate how the ethical experience of the Hebraic tradition informed his other works.

**The Gramscian Moment** - Peter D. Thomas 2009

Drawing on the rich recent season of Gramscian philological studies, this book offers a reconsideration of Gramsci's theory of the state and concept of philosophy, arguing that a renewal of the 'philosophy of praxis' constitutes

a necessary element in the contemporary revitalisation of Marxism.

Women in Love - D. H. Lawrence 2019-06-07  
Women in Love follows lives of the Brangwen sisters, Ursula a schoolteacher, and Gudrun a painter. They meet two men who live nearby, school inspector Rupert Birkin and Gerald Crich, heir to a coal-mine, and the four become friends. Ursula and Birkin begin a romantic friendship, while Gudrun and Gerald eventually begin a love affair. The emotional relationships thus established are given further depth and tension by an intense psychological and physical attraction between Gerald and Rupert. All four are deeply concerned with questions of society, politics, and the relationship between men and women. The novel ranges over the whole of British society before the time of the First World War and eventually concludes in the snows of the Tyrolean Alps.

*A Theory of Legal Argumentation* - Robert Alexy 2009-12-10

What is to be understood by 'rational legal argument'? To what extent can legal reasoning be rational? Is the demand for rationality in legal affairs justified? And what are the criteria of rationality in legal reasoning? The answer to these questions is not only of interest to legal theorists and philosophers of law. They are pressing issues for practicing lawyers, and a

matter of concern for every citizen active in the public arena. Not only the standing of academic law as a scientific discipline, but also the legitimacy of judicial decisions depends on the possibility of rational legal argumentation. A theory of legal reasoning which tries to answer these questions pre-supposes a theory of general practical reasoning. This theory is the subject matter of the first two parts of the book. The result is a theory of general practical discourse which rests on insights of both Anglo-Saxon and German philosophy. It forms the basis of the theory of rational legal discourse, which is developed in the third part of this book.

*Shipwreck With Spectator* - Hans Blumenberg 1997

This elegant essay exemplifies Blumenberg's ideas about the ability of the historical study of metaphor to illuminate essential aspects of being human. Originally published in the same year as his monumental *Work on Myth*, *Shipwreck with Spectator* traces the evolution of the complex of metaphors related to the sea, to shipwreck, and to the role of the spectator in human culture from ancient Greece to modern times. The sea is one of humanity's oldest metaphors for life, and a sea journey, Blumenberg observes, has often stood for our journey through life. We all know the role that shipwrecks can play in this journey, and at some level we have all played witness to others' wrecks, standing in safety and knowing that there is nothing we can do to help, yet fixed comfortably or uncomfortably in our ambiguous role as spectator. Through Blumenberg's seemingly inexhaustible knowledge of letters, from ancient texts through nineteenth-century reminiscences and modern speeches, we see layer upon layer revealed in the meaning humans have given to these metaphors; and in this way we begin to understand what metaphors can do that more straightforward modes of expression cannot. This edition of *Shipwreck with Spectator* also includes "Prospect for a Theory of Nonconceptuality," an essay that recounts the evolution of Blumenberg's ideas about metaphorology in the years following his early manifesto "Paradigms for a Metaphorology."

*Francis Bacon on Motion and Power* - Guido Giglioli 2016-04-25

This book offers a comprehensive and unitary study of the philosophy of Francis Bacon, with special emphasis on the medical, ethical and political aspects of his thought. It presents an original interpretation focused on the material conditions of nature and human life. In particular, coverage in the book is organized around the unifying theme of Bacon's notion of appetite, which is considered in its natural, ethical, medical and political meanings. The book redefines the notions of experience and experiment in Bacon's philosophy of nature, shows the important presence of Stoic themes in his work as well as provides an original discussion of the relationships between natural magic, prudence and political realism in his philosophy. Bringing together scholarly expertise from the history of philosophy, the history of science and the history of literature, this book presents readers with a rich and diverse contextualization of Bacon's philosophy.

**Image, Eye and Art in Calvino** - Birgitte Grundtvig 2017-07-05

Few recent writers have been as interested in the cross-over between texts and visual art as Italo Calvino (1923-85). Involved for most of his life in the publishing industry, he took as much interest in the visual as in the textual aspects of his own and other writers' books. In this volume twenty international Calvino experts, including Barenghi, Battistini, Belpoliti, Hofstadter, Ricci, Scarpa and others, consider the many facets of the interplay between the visual and textual in Calvino's works, from the use of colours in his fiction to the influence of cartoons, from the graphic qualities of the book covers themselves to the significance of photography and landscape in his fiction and non-fiction. The volume is appropriately illustrated with images evoked by Calvino's major texts.

**A Dictionary of Stylistics** - Katie Wales

2014-09-11

Reviews of the first edition: '...a work of high seriousness...manna from rhetorical heaven for students and researchers with a lot of hard graft ahead of them... '(English Today) '...an impressive single-author reference work... '(English) '...Not only is this volume indispensable for anyone, students or academics, working in any field related to stylistics, it is, like all the best dictionaries, a very good read...' (Le Lingue del Mondo) Over the past ten years there have been striking advances in stylistics. These have given rise to new terms and to revised thinking of concepts and re-definitions of terms. A Dictionary of Stylistics, 2nd Edition contains over 600 alphabetically listed entries: fully revised since the first and second editions, it contains many new entries. Drawing material from stylistics and a range of related disciplines such as sociolinguistics, cognitive linguistics and traditional rhetoric, the revised Third Edition provides a valuable reference work for students and teachers of stylistics, as well as critical discourse analysis and literary criticism. At the same time it provides a general picture of the nature, insights and methodologies of stylistics. As well as explaining terminology clearly and concisely, this edition contains a subject index for further ease of use. With numerous quotations; explanations for many basic terms from grammar and rhetoric; and a comprehensive bibliography, this is a unique reference work and handbook for stylistic and textual analysis. Students and teachers at secondary and tertiary levels of English language and literature or English as a foreign or second language, and of linguistics, will find it an invaluable source of information. **The Legacy of Mario Pieri in Geometry and Arithmetic** - Elena Anne Marchisotto 2007-12-05

This book is the first in a series of three volumes that comprehensively examine Mario Pieri's life, mathematical work and influence. The book introduces readers to Pieri's career and his studies in foundations, from both historical and modern viewpoints. Included in this volume are the first English translations, along with analyses, of two of his most important

axiomatizations — one in arithmetic and one in geometry. The book combines an engaging exposition, little-known historical notes, exhaustive references and an excellent index. And yet the book requires no specialized experience in mathematical logic or the foundations of geometry.

**Homo Aestheticus** - Luc Ferry 1993

Can subjective, individual taste be reconciled with an objective, universal standard? In *Homo Aestheticus*, Luc Ferry argues that this central problem of aesthetic theory is fundamentally related to the political problem of democratic individualism. Ferry's treatise begins in the mid-1600s with the simultaneous invention of the notions of taste (the essence of art as subjective pleasure) and modern democracy (the idea of the State as a consensus among individuals). He explores the differences between subjectivity and individuality by examining aesthetic theory as developed first by Kant's predecessors and then by Kant, Hegel, Nietzsche, and proponents of the avant-garde. Ferry discerns two "moments" of the avant-garde aesthetic: the hyperindividualistic iconoclasm of creating something entirely new, and the hyperrealistic striving to achieve an extraordinary truth. The tension between these two, Ferry argues, preserves an essential element of the Enlightenment concern for reconciling the subjective and the objective—a problem that is at once aesthetic, ethical, and political. Rejecting postmodern proposals for either a radical break with or return to tradition, Ferry embraces a postmodernism that recasts Enlightenment notions of value as a new intersubjectivity. His original analysis of the growth and decline of the twentieth-century avant-garde movement sheds new light on the connections between aesthetics, ethics, and political theory.

*City of Panic* - Paul Virilio 2005-08

*City of Panic* takes the reader on a journey across the airy boulevards of Paris and into the crypt of its Metro. For Virilio, whose sense of cities was formed by earlier wars, Paris is both the City of Light and the City of Panic. Written in the shadow of war, *City of Panic* argues that cities everywhere have been the dedicated target of political and technological terror throughout the 20th century. The wanton

erasure of the past, the construction of identikit places, the proliferation of gated-communities, the ever-widening net of surveillance, the privatisation of what was public ... Now every metropolis is a war zone and every metropolis is the same. In this globalized and militarized everywhere, all citizens are becoming one citizen - saturated, standardized and synchronized - ever-more reliant on a media fabricating a world of fear. For the panic of the 21st century is simply the final phase of the pincer movement. Place-less, media-fed, panic-struck - welcome to the desert of the real.

*The Oxford Handbook of Neo-Latin* - Sarah Knight 2015-05-01

From the dawn of the early modern period around 1400 until the eighteenth century, Latin was still the European language and its influence extended as far as Asia and the Americas. At the same time, the production of Latin writing exploded thanks to book printing and new literary and cultural dynamics. Latin also entered into a complex interplay with the rising vernacular languages. This Handbook gives an accessible survey of the main genres, contexts, and regions of Neo-Latin, as we have come to call Latin writing composed in the wake of Petrarch (1304-74). Its emphasis is on the

period of Neo-Latin's greatest cultural relevance, from the fifteenth to the eighteenth centuries. Its chapters, written by specialists in the field, present individual methodologies and focuses while retaining an introductory character. The Handbook will be valuable to all readers wanting to orientate themselves in the immense ocean of Neo-Latin literature and culture. It will be particularly helpful for those working on early modern languages and literatures as well as to classicists working on the culture of ancient Rome, its early modern reception and the shifting characteristics of post-classical Latin language and literature. Political, social, cultural and intellectual historians will find much relevant material in the Handbook, and it will provide a rich range of material to scholars researching the history of their respective geographical areas of interest. **A History of Film** - Virginia Wright Wexman 2006

Substantially revised for this edition, "A History of Film" is a comprehensive international survey of film from its beginnings to the present. This text highlights the contributions of major film-producing countries, significant filmmakers, and their films within social, artistic, economic, and technological contexts. This Sixth Edition incorporates major revisions designed to improve the book's focus and provide more balanced coverage. New to the Sixth Edition Includes new chapters on Indian and Chinese cinemas, emphasizing the exploding film industry in these two countries. Adds a chapter on "The Digital Future" in American film, bringing the text up-to-date with latest technological and industrial developments. Discusses more women filmmakers throughout the text and adds a section on Asian-American filmmakers, expanding the diversity and inclusiveness of the text. Replaces many illustrations with new examples, most of them frame enlargements, and, specifically, keys all illustrations to discussions in the text, ensuring that the images will be valuable learning tools for students. Adds more extended analyses of individual films, helping students grasp large

historical questions by presenting them within specific cases rather than in abstract generalities. Provides a new glossary, helping students understand the technical, foreign-language, and industry terms used in the text. Praise for "A History of Film" "The reason why I selected "A History of Film" over all of the other textbooks has to do with the basic approach of the subject of film as a developing art form while paying careful attention to film genres and history; the organizational structure of the chapters; a clear and authoritative writing style that explains the interconnectivity of film as a global phenomenon; and the use of judiciously selected stills in support of the text. . . . The structure, organization and content of "A History of Film" is so good that it is, to me, still the standard by which all other film textbooks must be measured." -"Stephen Ambra, New Hampshire Technical Institute" "The text concisely covers all of film history, and its size makes it particularly useful for film history courses taught in a single term. . . . It is typically quite insightful, yet not too dense for motivated introductory students." -"Mark Gallagher, University of Missouri"

*Intelligence As a Principle of Public Economy* - Carlo Cattaneo 2007

*Intelligence as a Principle of Public Economy* offers the best expression of the life and thought of the nineteenth-century Italian political economist Carlo Cattaneo. Available here for the first time in English, this volume showcases pensiero come principio d'economia pubblica, Cattaneo's pioneering vision of economic growth that emphasized the central role of intelligence and will in economic processes, the value of knowledge and innovation, and the importance of liberty. This classic of Italian thought is framed by a long biographical sketch of Cattaneo's life before, during, and after the Italian Risorgimento and an afterword that demonstrates the continuing relevance of Cattaneo's social, political, and economic ideas to today's ongoing debate about the importance of a free society.

**Letters 1941-1985** - Italo Calvino 2014-06-05  
The extraordinary letters of Italo Calvino, one of the great writers of the twentieth century,

translated into English for the first time by Martin McLaughlin, with an introduction by Michael Wood. Italo Calvino, novelist, literary critic and editor, was also a masterful letter writer whose correspondents included Umberto Eco, Primo Levi, Gore Vidal and Pier Paolo Pasolini. This collection of his extraordinary letters, the first in English, gives an illuminating insight into his work and life. They include correspondence with fellow authors, generous encouragement to young writers, responses to critics, thoughts on literary criticism and literature in general, as well as giving glimpses of Calvino's role in the antifascist Resistance, his disenchantment with Communism and his travels to America and Cuba. Together they reveal the searching intellect, clarity and passionate commitment of a great writer at work. 'This literally marvelous collection of letters shows him to have been gregarious, puckish, funny, combative, and, above all, wonderful company, and opens a new and fascinating perspective on one of the master writers of the twentieth century. Michael Wood and Martin McLaughlin have done Calvino, and us, a great and loving service.' John Banville 'A charming addition to the Planet Calvino - a place cluttered with sphinxes, chimeras, knights, spaceships and viscounts both cloven and whole' Guardian Italo Calvino, one of Italy's finest postwar writers, was born in Cuba in 1923 and grew up in San Remo, Italy. Best known for his experimental masterpieces, *Invisible Cities* and *If on a Winter's Night a Traveller*, he was also a brilliant exponent of allegorical fantasy in works such as *The Complete Cosmicomics*. He died in Siena in 1985.

**Dantean Dialogues** - Maggie Kilgour 2013-01-01

*Dantean Dialogues* is a collection of essays by some of the world's most outstanding Dante scholars. These essays enter into conversation with the main themes of the scholarship of Amilcare Iannucci (d. 2007), one of the leading researchers on Dante of his generation and arguably Canada's finest scholar of the Italian poet. The essays focus on the major themes of Iannucci's work, including the development of Dante's early poetry, Dante's relation to classical and biblical sources, and Dante's reception. The contributors cover crucial aspects of Dante's

work, from the authority of the New Life to the novelty of his early poetry, to key episodes in the Comedy, to the poem's afterlife. Together, the essays show how Iannucci's reading of central cruxes in Dante's texts continues to inspire Dante studies - a testament to his continuing influence and profound intellectual legacy.

Marx and the French Revolution - François Furet 1988-12-14

Throughout his life Karl Marx commented on the French Revolution, but never was able to realize his project of a systematic work on this immense event. This book assembles for the first time all that Marx wrote on this subject. François Furet provides an extended discussion of Marx's thinking on the revolution, and Lucien Calvié situates each of the selections, drawn from existing translations as well as previously untranslated material, in its larger historical context. With his early critique of Hegel, Marx started moving toward his fundamental thesis: that the state is a product of civil society and that the French Revolution was the triumph of bourgeois society. Furet's interpretation follows the evolution of this idea and examines the dilemmas it created for Marx as he considered all the faces the new state assumed over the course of the Revolution: the Jacobin Terror following the constitutional monarchy, Bonaparte's dictatorship following the parliamentary republic. The problem of reconciling his theory with the reality of the Revolution's various manifestations is one of the major difficulties Marx contended with throughout his work. The hesitation, the remorse, and the contradictions of the resulting analyses offer a glimpse of a great thinker struggling with the constraints of his own system. Marx never did elaborate a theory of an autonomous state, but he never stopped wrestling with the challenge to his doctrine posed by late eighteenth-century France, whose changing conditions and successive regimes prompted some of his most intriguing and, until

now, unexplored thought.

*Francis Bacon and Renaissance Prose* - Brian Vickers 1968

Dr Vicker's purpose is to reinstate Bacon as one of the supreme masters of English prose in a period which made rich use of all the expressive resources of the medium. The study is both analytical and historical: it isolates the major features of Bacon's style, and sets them in the context of Renaissance theory and practice.
