390 pages; non-fiction. Author looks at how what people think dictates how they are governed. Our Christian ancestors thought like self-governing citizens and governed themselves. Since the 1960s, however, Americans have thought less like their ancestors than like Europeans and been governed as such; governed, in other words, as if bureaucrats viewed them as objects of political domination. The relevant historical period is late eighteenth century European and American history to the present. Readers will discover how America was Europeanized post-1960 after one of the most war-torn regions of the world and how Darwin, Freud and Marx caused World War II.

**The Adventures of Hergé** - Jose-Louis Bocquet 2011-12-06

A GRAPHIC BIOGRAPHY OF TINTIN'S CREATOR by Jose-Louis Bocquet and Jean-Luc Fromental, Illustrated by Stanislas Barthélémy The Adventures of Hergé is a biographical comic about the world-renowned comics artist Georges Prosper Remi, better known by his pen name, Hergé. Meticulously researched, with references to many of the Tintin albums and complete with a bibliography and mini-bios for each of the main "characters," the biography is appropriately drawn in Hergé's iconic clear line style as an homage to the Tintin adventures that have commanded the attention of readers across the world and of many generations. Seven-year-old Hergé first discovered his love of drawing in 1914 when his mother gave him some crayons to stay out of trouble. He continued drawing in school when he fatefully met the editor of *XXe Siècle* magazine, where Tintin first appeared. His popularity skyrocketed from the 1930s through post-World War Two. Hergé was perceived by some to have aided the Nazi government in Belgium by continuing to publish Tintin in a government-sanctioned magazine, and he was briefly imprisoned in the aftermath of the war and narrowly escaped execution. Also covered are his marriage troubles in the 1950s and subsequent affair with Fanny Vlamynck, who went on to become his lifelong partner; his late career in the 1960s, as his interest in Tintin waned and he occasionally "disappeared" for weeks at a time as he contemplated giving up his career to become a fine-arts painter; and a recounting of a humorous encounter with Andy Warhol.

### **A Wrinkle in Time** - Madeleine L'Engle 2019-07-18

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. ### **The King in Yellow** - Robert William Chambers 2020-09-28

Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures

demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.

His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City

East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards
