*Janus and Oblivion* - Noam Oswin 2019-07-06

Not many refuse heaven. Fewer reject paradise. Certainly rare are those who would find themselves before a being of unknown power and point out the demerits of nirvana. One man does. When the aloof fourth son of a business mogul makes the decision to save a life at the cost of his own, he discovers that what awaits him at the end of his mortality is not eternal oblivion. He cannot help but be disappointed. When he realizes the world he's been brought to works like the old fantasy games he used to love, he begins to see the merits. If only he did not start out as the

weakest thing in existence, and if only the world he was in was not populated with madness-inducing creatures and fates worse than death. "Decide for yourself, your fantasies and your Nightmares, your companions and your adversaries, your angels and your demons, your gods and your monsters. Alamir stretches to you a hand of a thousand possibilities -You only need take it."

The Gates of Janus - Ian Brady 2015-05-12

Known as The Moors Murders, the case of Ian Brady and Myra Hindley's torture, sexual abuse, and murder of a child and two teenagers in the early 1960s is thought to be the most appalling series of crimes ever committed in England. To understand human character, one must first explore the depraved reaches of human consciousness. So believes novelist and true-crime writer Colin Wilson, who introduces Brady's book. Brady first explores human impulse based on his readings, observations, and life story. He then analyzes a dozen other serial crimes and serial murderers.

**The Ages of Two-faced Janus** - Tabitta Van Nouhuys 1998

This volume deals with the tracts - Latin and vernacular - published in the Netherlands on the comets of 1577 and 1618. Central to the book is the question of how these cometary appearances influenced the Aristotelian world view. This is the first lengthy examination of the decline of Aristotelian cosmology in the Netherlands. Its demonstration of the connection between cosmological and political views renders the book useful to historians of general Dutch history, as well as historians of science.

She has uprooted her real estate business from urban Philadelphia to rural North Carolina and has recently survived A Lethal Listing (see Diana Rittenhouse Mystery 1/5) that almost claimed her life. Diana is excited about getting her Broker-In-Charge license and taking a second chance on love with Matthew Troutman, an easy-going southerner who is her polar opposite. But fate intervenes in the form of two eight year old look-alikes, who are destined to turn her world upside down. Juan is a Mexican orphan, while Johnny is the son of Diana's wealthy new clients. The boys are a modern day Prince and Pauper, but in spite of their differences, they become inseparable friends---until Diana makes a terrible blunder and one of the boys is kidnapped from her Open House. Neither the local police nor the FBI makes progress in the missing persons case, and as the casualties mount, Diana is devastated by guilt. She takes matters into her own hands and joins forces with her new love, Matthew, to find the abducted child. The quest leads them deep into the Carolina mountains, where the backwoods natives seem to hail from a previous century. When bullets start to fly, they fight not only to rescue the child, but also to save their own lives.

The Janus Stone - Elly Griffiths 2016-06-02

Dr Ruth Galloway's forensic skills are called upon when builders, demolishing an old house in Norwich, uncover the bones of a child -

minus the skull - beneath a doorway. Is it some ritual sacrifice or just plain straightforward murder? Ruth links up with DCI Harry Nelson to investigate. The house was once a children's home. Nelson traces the Catholic priest who used to run the place. He tells him that two children did go missing forty years before - a boy and a girl. They were never found. When carbon dating proves that the child's bones predate the home and relate to a time when the house was privately owned, Ruth is drawn ever more deeply into the case. But as spring turns into summer it becomes clear that someone is trying hard to put her off the scent by frightening her to death...

*Failure to Protect* - Eric S. Janus 2006

Shows that "sexual predator" laws, which have intense public and political support, are counterproductive. Janus contends that aggressive measures such as civil commitment and Megan's law, which are designed to restrain sex offenders before they can commit another crime, are bad policy and do little to actually reduce sexual violence. Further, these new laws make use of approaches such as preventive detention and actuarial profiling that violate important principles of liberty. Janus argues that to prevent sexual violence, policymakers must address the deep-seated societal problems that allow it to flourish. From publisher description.

*The Two Babylons* - Alexander Hislop 1998-05

In this scholarly classic, first published over eighty years ago, Alexander Hislop reveals that many Roman Catholic teachings did not originate with Christ or the Bible, but were adopted from ancient pagan Babylonian religion, and given Christian names.
