The scenic town of New Albany lies along the banks of the Ohio River, opposite Louisville, Kentucky. Founded in 1813 and incorporated in 1839, New Albany grew to be the largest city in Indiana by the mid-1800s. Vintage Postcards from the African World - Jessica B. Harris 2020-05-15

For over forty years, professor and culinary historian Jessica B. Harris has collected postcards depicting Africans and their descendants in the American diaspora. They are presented for the first time in this exquisite volume. *Vintage Postcards from the African World: In the Dignity of Their Work and the Joy of Their Play* brings together more than 150 images, providing a visual document of more than a century of work in agricultural and culinary pursuits and joy in entertainments, parades, and celebrations. Organized by geography—Africa, the Caribbean, and the United States—as well as by the types of scenes depicted—the farm, the garden, and the sea; the marketplace; the vendors and the cooks; leisure, entertainments, and festivities—the images capture the dignity of the labors of everyday life and the pride of festive occasions. Superb and rare images demonstrate everything from how Africans and their descendants dressed to what tools they used to how their entertainments provided relief from toil. Three essays accompany the postcards, one of which details Harris's collection and the collecting process. A second presents suggestions on how to interpret the cards. A final essay gives brief information on the history of postcards and postcard dating and its increasing use and value to scholars.

Postcards from the Chihuahua Border - Daniel D. Arreola 2019-10-29

Just a trolley ride from El Paso, Ciudad Juárez was a popular destination in the early 1900s. Enticing and

exciting, tourists descended on this and other Mexican border towns to browse curio shops, dine and dance, attend bullfights, and perhaps escape Prohibition America. In *Postcards from the Chihuahua Border* Daniel D. Arreola captures the exhilaration of places in time, taking us back to Mexico's northern border towns of Ciudad Juárez, Ojinaga, and Palomas in the early twentieth century. Drawing on more than three decades of archival work, Arreola uses postcards and maps to unveil the history of these towns along west Texas's and New Mexico's southern borders. Postcards offer a special kind of visual evidence. Arreola's collection of imagery and commentary about them shows us singular places, enriching our understandings of history and the history of change in Chihuahua. No one postcard tells the entire story. But image after image offers a collected view and insight into changing perceptions. Arreola's geography of place looks both inward and outward. We see what tourists see, while at the same time gaining insight about what postcard photographers and postcard publishers wanted to be seen and perceived about these border communities. *Postcards from the Chihuahua Border* is a colorful and dynamic visual history. It invites the reader to time travel, to revisit another era—the first half of the last century—when these border towns were framed and made popular through picture postcards.

Postcards - Lydia Pyne 2021-10-13

A global exploration of postcards as artifacts at the intersection of history, science, technology, art, and culture. Postcards are usually associated with banal holiday pleasantries, but they are made possible by sophisticated industries and institutions, from printers to postal services. When they were invented, postcards established what is now taken for granted in modern times: the ability to send and receive messages around the world easily and inexpensively. Fundamentally they are about creating personal connections—links between people, places, and beliefs. Lydia Pyne examines postcards on a global scale, to understand them as artifacts that are at the intersection of history, science, technology, art, and culture. In doing so, she shows how postcards were the first global social network and also, here in the twenty-first century, how postcards are not yet extinct.

Williamsburg in Vintage Postcards - Kristopher J. Preacher 2002

"Williamsburg is a stronghold of the past, a sort of enchanted ground, lovely and quiet as a dream."

Williamsburg may no longer be quiet as a dream, but it is certainly lovely and unquestionably a stronghold of the past, more so now than Miss Hildegard Hawthorne could have dreamt when she penned these words in 1917. After Virginia's capital moved from Williamsburg to Richmond in 1780, the city sank into one and a half centuries of sleepy obscurity punctuated only by the Civil War. From 1928 to 1932, however, John D. Rockefeller Jr. restored the city to its colonial glory, and it leaped from impoverished backwater to tourist mecca within the space of a few years.

Those residents who "remember Fairfield when . . .," as well as those with a desire to learn more about "Fairfield when . . .," will be fascinated by Fairfield and Southport.
