*Drug Wars* - Claudia Martin  
2017-12-15

The violence that surrounds drug dealing and drug trafficking has decimated whole communities, and, in some cases, reshaped daily life in entire countries. This volume takes a closer look at the people affected by the drug trade and the efforts being made to combat it. The book includes firsthand stories, critical thinking questions, and a summative activity, all with the aim of showing the human toll of the drug economy.

*Alcohol in America* - United States Department of Transportation 1985-02-01  
Alcohol is a killer—1 of every 13 deaths in the United States is alcohol-related. In addition, 5 percent of the population

consumes 50 percent of the alcohol. The authors take a close look at the problem in a "classy little study," as The Washington Post called this book. The Library Journal states, "...[T]his is one book that addresses solutions....And it's enjoyably readable....This is an excellent review for anyone in the alcoholism prevention business, and good background reading for the interested layperson." The Washington Post agrees: the book "...likely will wind up on the bookshelves of counselors, politicians, judges, medical professionals, and law enforcement officials throughout the country."

**Straight Talk: Smoking** -

Stephanie Paris 2012-09-01

How much do you know about cigarettes and tobacco? Do you know where tobacco comes from originally? Do you know what happens to a person's body when they first start smoking? How much money do you think is spent on cigarettes each year? How many people smoke? What can you say if someone offers you a

cigarette? For answers to these questions and many more, take a look inside.

**Make a Difference: Talk to Your Child about Alcohol** -

Health and Human Services Dept., National Institutes of Health, National Institute on Alcohol Abuse and Alcoholism  
2017-03-08

"Why develop a booklet about helping kids avoid alcohol?" Alcohol is a drug, as surely as cocaine and marijuana are. It's also illegal to drink under the age of 21. And it's dangerous. Kids who drink are more likely to: \* Be victims of violent crime. \* Have serious problems in school. \* Be involved in drinking-related traffic crashes. This guide is geared to parents and guardians of young people ages 10 to 14. These suggestions are just that-- suggestions. Trust your instincts. Choose ideas you are comfortable with, and use your own style in carrying out the approaches you find useful. Your child looks to you for guidance and support in making life decisions--including the decision not to use alcohol

.Audience: Parents, child counselors, educators, child psychologists, physicians, school guidance counselors, and teenagers may be interested in this resource.

*Straight Talk about Criminals -*  
Stanton E. Samenow  
2002-10-01

Is there a genetic predisposition to crime? Should mental illness be taken into account? Do family and social environments have a role? Do people become abusers because they have been abused? How can people who

do terrible things consider themselves good people? What should someone involved in a relationship with a criminal know? Stanton Samenow, co-author of the widely respected three-volume study of The Criminal Personality, has collected the questions posed by audiences during his speaking engagements of the past twenty-eight years about causes, characteristics, and treatments of antisocial behavior. Now he draws on his research and clinical experience with hundreds of men, women, and children to offer no-frills answers that embody his informed perspectives on some of the toughest policy issues facing individuals, institutions, and governments today. ### *No Smoking, No Drinking, No Drugs* - Sally Huss 2017-10-29

A smart little mouse, named Mr. Consequences, arrives just in time to stop young Billy from making a bad choice. In the simplest way, the mouse

explains the importance of choosing well and what can happen to those who do not when it comes to smoking, alcohol, and drug use. Everyone has the ability to become great at something, Billy is told. However, these substances can get in the way of that by causing a person to lose interest in learning and developing their own greatness. They can even damage a person's health over a period of time. Health and happiness go together. Mr. Consequences leaves Billy knowing that the young lad now understands the importance of making good choices. And Billy is left with a greater sense of self-assurance, planning on being healthy and happy his whole life long.

The War on Alcohol: Prohibition and the Rise of the American State - Lisa McGirr 2015-11-30

“[This] fine history of Prohibition . . . could have a major impact on how we read American political history.”—James A. Morone, New York Times Book Review  
Prohibition has long been portrayed as a “noble experiment” that failed, a newsreel story of glamorous gangsters, flappers, and speakeasies. Now at last Lisa McGirr dismantles this cherished myth to reveal a much more significant history. Prohibition was the seedbed for a pivotal expansion of the federal government, the genesis of our contemporary penal state. Her deeply researched, eye-opening account uncovers patterns of enforcement still familiar today: the war on alcohol was waged disproportionately in African American, immigrant, and poor white communities. Alongside Jim Crow and other

discriminatory laws, Prohibition brought coercion into everyday life and even into private homes. Its targets coalesced into an electoral base of urban, working-class voters that propelled FDR to the White House. This outstanding history also reveals a new genome for the activist American state, one that shows the DNA of the right as well as the left. It was Herbert Hoover who built the extensive penal apparatus used by the federal government to combat the crime spawned by Prohibition. The subsequent federal wars on crime, on drugs, and on terror all display the inheritances of the war on alcohol. McGirr shows the powerful American state to be a bipartisan creation, a legacy not only of the New Deal and the Great Society but also of Prohibition and its progeny. The War on Alcohol is history at its best—original, authoritative, and illuminating of our past and its continuing presence today.

[Straight Talk about Your Child's Mental Health](#) -

Stephen V. Faraone 2012-04-24  
Parents reach for dog-eared copies of Dr. Spock when their child has a rash or the flu, but when "moodiness" lingers or worrisome behavior problems grow, they have nowhere to turn for answers or reassurance. Now, in this compassionate resource, prominent Harvard researcher Dr. Stephen V. Faraone gives parents the tools they need to look clearly at how a child is feeling, thinking, and behaving and make wise decisions about when to call for professional help. Cues and questions teach readers to become scientific observers of their child, and vital facts about common disorders help them distinguish between normal variations in

speech development and Asperger syndrome, between moodiness that's just a phase and depression, between childhood fears and the symptoms of anxiety. Knowing what to ask--and tell--the professionals, from the pediatrician to a mental health specialist, will help parents ensure a complete and accurate diagnosis. Filled with handy sidebars, charts, and checklists, the book also teaches parents to weigh treatment options to determine what's best for their child.

- Various

treatment options and how to choose the best treatment for your child • Strategies for handling relapses Teens Under the Influence offers practical help that may save your child's life. It may save the life of a friend. And it may save your own.

TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019) - U.S. Department of Health and Human Services 2019-11-19

Motivation is key to substance use behavior change.

Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists.

Motivational approaches are based on the principles of person-centered counseling.

Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs.

Counselors should engage them in collaborative partnerships. Ambivalence

about change is normal.

Resistance to change is an expression of ambivalence about change, not a client trait or characteristic.

Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.

[How to Raise a Drug-Free Kid](#) -

Joseph A. Califano 2014-09-09

Nearly every child will be offered drugs or alcohol before graduating high school. The good news is that a child who gets to age twenty-one without smoking, using drugs, or abusing alcohol is virtually certain never to do so ... and informed parents have the power to influence their kids to choose not to use. This gives parents a realistic picture of the world their teens confront and the tools to help them get through adolescence healthy and drug free. Based on research at the National Center on Addiction and Substance Abuse at Columbia University, this book answers the daunting questions parents

across the country have repeatedly asked.
