The Cambridge Companion to Seneca - Shadi Bartsch 2015-02-16

The Roman statesman, philosopher and playwright Lucius Annaeus Seneca dramatically influenced the progression of Western thought. His works have had an unparalleled impact on the development of ethical theory, shaping a code of behavior for dealing with tyranny in his own age that endures today. This Companion thoroughly examines the complete Senecan corpus, with special emphasis on the aspects of his writings that have challenged interpretation. The authors place Seneca in the context of the ancient world and trace his impressive legacy in literature, art, religion, and politics from Neronian Rome to the early modern period. Through critical discussion of the recent proliferation of Senecan studies, this volume compellingly illustrates how the perception

of Seneca and his particular type of Stoicism has evolved over time. It provides a comprehensive overview that will benefit students and scholars in classics, comparative literature, history, philosophy and political theory, as well as general readers.

The Summa Contra Gentiles - Saint Thomas Aquinas 1924

Fifteen years ago the English Dominican Fathers embarked on what was considered by many the hazardous and even useless venture of translating the Summa Theologica of the Angelic Doctor. Yet although there were critics adverse to the project, there were others, not a few, who approved and encouraged; these and the favour with which the effort, notwithstanding its many deficiencies, was received, heartened the translators to persevere, and enabled them to bring their work to a happy conclusion. For the venture has proved a success beyond the most sanguine expectations; and already the work has entered into a second edition.

Dante - Erich Auerbach 2007-01-16

Erich Auerbach's *Dante: Poet of the Secular World* is an inspiring introduction to one of world's greatest poets as well as a brilliantly argued and still provocative essay in the history of ideas. Here Auerbach, thought by many to be the greatest of twentieth-century scholar-critics, makes the seemingly paradoxical claim that it is in the poetry of Dante, supreme among religious poets, and above all in the stanzas of his *Divine Comedy*, that the secular world of the modern novel first took imaginative form. Auerbach's study of Dante, a precursor and necessary complement to *Mimesis*, his magisterial overview of realism in Western literature, illuminates both the overall structure and the individual detail of Dante's work, showing it to be an extraordinary synthesis of the sensuous and the conceptual, the particular and the universal, that redefined notions of human character and fate and opened the way into modernity. A New Introduction to the Synoptic Gospels - Roland Meynet 2010

In this book Meynet offers an entirely new perspective on the study of the Synoptic Gospels, adding further insights within the growing body of modern research into the meanings of the Gospels of Matthew, Mark and Luke. Utilizing the rhetorical method of analysis, of which he is a leading proponent, Meynet studies the composition of the Gospels as they were written and makes it possible to understand them in systematic and until now unexpected ways. The author does not approach these Gospels on the basis of introductory questions, but instead combines critical analysis with the evangelists own persuasive intentions.

The Priority of John - John A. T. Robinson 2011-03-01

It has been the fate of many books on John to be left unfinished, for its

interpretation naturally forms the crowning of a lifetime. I have myself been intending to write a book on the Fourth Gospel since the 'fifties, before I broke off (reluctantly) to be Bishop of Woolwich, though I am grateful now that I did not produce it prematurely at that time. It means however that I shall be compelled to refer to and often recapitulate material directly or indirectly related to the Johannine literature, which I have written over the years (some of it indeed while I was bishop). Many scholars in fact, if not most now, think that the author of the Gospel himself never lived to finish it and have seen the work as the product of numerous hands and redactors. As will become clear, I prefer to believe that the ancient testimony of the church is correct that John wrote it 'while still in the body' and that its roughnesses, self-corrections and failures of connection, real or imagined, are the result of its not having been smoothly or finally edited. If so I am in good company. At any rate who could wish for a better last testimony from his friends than that 'his witness is true' (John 21.24)? In other words, he got it right—historically and theologically. --from the Introduction At the time of his death in December 1983, John Robinson had completed the text of the book on which his 1984 Bampton lectures were to be based, so that it is possible to see the full details of his extremely controversial argument that the Gospel of John was the first Gospel to be written. Dr. Robinson himself once described the dawning of his conviction that this was the case as a 'Damascus Road experience', and his presentation of the evidence is made with all the customary vigor with which he would argue for something in which he deeply believed. The objections which need to be overcome to stand on its head what has long been one of the fundamental assumptions of New Testament scholarship are substantial, but here once again Dr. Robinson shows that so much of what is taken as established fact in that area is no more than preference and presumption. Certainly he will provoke rethinking on a whole series of topics, from the chronology of Jesus' ministry to the nature of his teaching. As The Listener said of the equally controversial *Redating the New Testament: The greatest pleasure* Dr. Robinson gives is purely intellectual. His book is a prodigious virtuoso exercise in inductive reasoning and an object lesson in the nature of historical argument and historical knowledge. This sequel equals, if not excels, its predecessor in those respects and is a fitting tribute to a brilliant New Testament scholar. The manuscript was prepared for publication by Dr. Chip Coakley, Dr Robinson's pupil, now Lecturer in Religious Studies in the University of Lancaster.

The Light of Common Day - Diana Cooper 2018-05-03

Lady Diana Cooper had been famous from her earliest youth, the subject of gossip and adoration as the queen of the 'Coterie', an exclusive high society set. Her marriage to Duff Cooper, a rising political star, and her career on the stage and in early silent films only increased her notoriety. Her second volume of autobiography chronicles these years in the run-up to the Second World War, and her adventures as an unconventional hostess, actress, wife and mother are told in typically fast-paced, witty and brilliant style.

A History of Baroque Music - George J. Buelow 2004-11-23

"A History of Baroque Music is a detailed treatment of the music of the Baroque era, with particular focus on the seventeenth century. The author's approach is a history of musical style with an emphasis on musical scores. The book is divided initially by time period into early and later Baroque (1600-1700 and 1700-1750 respectively), and secondarily by country and composer. An introductory chapter discusses stylistic continuity with the late Renaissance and examines the etymology of the term "Baroque." The concluding chapter on the composer Telemann addresses the stylistic shift that led to the end of the Baroque and the transition into the Classical period."--Jacket.

AHA! The Realization Book - Janet McClure 1997-06-01

What is a realization? It is bringing together, making real, and understanding where you are now with respect to a certain area of your life, usually a certain large area in your life.... Suddenly something that you didn't see or understand previously becomes crystal clear, especially to the mental body. If you recognize that you create your own life from your beliefs about yourself (and this book is based on that premise), then you know also that you can change your life, improve it by changing the beliefs that are not serving you well. Usually, however, to make a complete change it is necessary to recognize or realize more than just mentally. Your emotional body's beliefs and needs must be met. The emotional body needs to feel supported as you change this pattern. The emotional works through feelings and symbols, but its conclusions are just as valid, just as meaningful, and even more powerful than the mental conclusions. In this book, I, Vywamus, have given many possible causes of a lot of undesirable or unclear circumstances that you may be mirroring in your life. You can read the sections and see if they seem to apply to what you are mirroring into your life from your beliefs. If you are manifesting into your life in a way that is not clear, then reading this book may give you a "light bulb" or a realization that you are holding a specific erroneous belief.

The Vatican Necropoles - Paolo Liverani 2010

This is the first published summary of the entire complex of the great necropoles of Rome, which were situated on Vatican Hill. The work concerns one of the most extensive, richest, and least-known Roman archaeological phenomena and bears witness to the work of creating an underground museum that has been followed internationally as a model of conservation practice. From the submerged world of the necropoles emerges the funeral 'normality' of the Roman world, from poorer cremations in wooden urns, to sumptuous sarcophagi, to sepulchres adorned with frescoes and mosaics. One can also observe Egyptian cults influencing the practice of epicurean philosophy. In addition, we can catch a glimpse of the first traces of Christianity, which include the presence of St. Peter the Apostle's tomb.
