A Companion to Greeks Across the Ancient World - Franco De Angelis 2020-05-07

An innovative, up-to-date treatment of ancient Greek mobility and migration from 1000 BCE to 30 BCE A Companion to Greeks Across the Ancient World explores the mobility and migration of Greeks who left their homelands in the ten centuries between the Early Iron Age and the Hellenistic period. While most academic literature centers on the Greeks of the Aegean basin area, this unique volume provides a systematic examination of the history of the other half of the ancient Greek world. Contributions from leading scholars and historians discuss where migrants settled, their new communities, and their connections and interactions with both Aegean Greeks and non-Greeks. Divided into three parts, the book first covers ancient and modern approaches and the study of the ancient Greeks outside their homelands, including various intellectual, national, and linguistic traditions. Regional case studies form the core of the text, taking a microhistory approach to examine Greeks in the Near Eastern Empires, Greek-Celtic interactions in Central Europe, Greek-established states in Central Asia, and many others throughout Europe, Africa, and Asia. The closing section of the text discusses wider themes such as the relations between the Greek homeland and the edges of Greek civilization. Reflecting contemporary research and fresh perspectives on ancient Greek culture contact, this volume: Discusses the development and intersection of mobility, migration, and diaspora studies Examines the various forms of ancient Greek mobility and their outcomes Highlights contributions to cultural development in the Greek and non-Greek world Examines wider themes and the various forms of ancient Greek mobility and their outcomes Includes an overview of ancient terminology and concepts, modern translations, numerous maps, and full references A Companion to Greeks Across the Ancient World is a valuable resource for students, instructors, and researchers of Classical antiquity, as well as non-specialists with interest in ancient Greek mobilities, migrations, and diasporas.

Classical Cats - Donald W. Engels 2018-10-03

This is the definitive book on classical cats. The cat has played a significant role in history from the earliest times. Well known is its role in the religion and art of ancient Egypt, no less than its association with witchcraft in the Middle Ages. But when did the cat become a domestic companion and worker as well? There has been much debate about the position of the cat in ancient Greece and Rome. Artistic representations are sometimes ambiguous, and its role as a mouse-catcher seems often to have been carried out by weasels. Yet other evidence clearly suggests that the cat was as important to Greeks and Romans as it is to many modern people. This book is the first comprehensive survey of the evidence for cats in Greece and Rome, and of their functions and representations in art. Donald Engels draws on authors from Aesop to Aristotle; on vase-painting, inscriptions and the plastic arts; and on a thorough knowledge of zoology of the cat. He also sets the ancient evidence in the wider context of the Egyptian period that preceded it, as well as the views of the Church fathers who ushered antiquity into the Middle Ages.

A Cat's Tale - Dr. Paul Koudounaris 2020-11-10

"Fun, fanciful, and even informative." —People The first comprehensive history of felines—from the laps of pagan gods to present-day status as meme stars—as revealed by a very learned tabby with a knack for hunting down facts Since the dawn of civilization, felines have prowled alongside mankind as they expanded their territory and spread the myth of human greatness. And today, cats are peddled on social media as silly creatures here to amuse humans with their antics. But this is an absurd, self-centered fantasy. The true history of felines is one of heroism, love, tragedy, sacrifice, and gravitas. Not entirely convinced? Well, get ready, because Baba the Cat is here to set the record straight. Spanning almost every continent and thousands—yes, thousands—of years, Baba's complex story of feline survival presents readers with a diverse cast of cats long forgotten: from her prehistoric feline ancestors and the ancient Egyptian cat goddess Bastet to the daring mariners at the height of oceanic discovery, key intellectuals in the Enlightenment period, revered heroes from World Wars I and II, and the infamous American tabbies. Baba, a talented model in addition to a scholar, goes beyond surface-level scratches, pairing her freshly unearthed research with a series of stunning costume portraits to bring history to life. A paws-on journey through the feline hall of fame, with in-depth research and four-legged testaments that will make you rethink who defines history, *A Cat's Tale* is a one-of-a-kind chronicle that introduces readers to the illustrious ancestors of their closest companions and shows, once and for all, that cats know exactly what they're doing.

Beyond the Nile - Sara E. Cole 2018-04-17

From about 2000 BCE onward, Egypt served as an important nexus for cultural exchange in the eastern Mediterranean, importing and exporting not just wares but also new artistic techniques and styles. Egyptian, Greek, and Roman craftsmen imitated one another's work, creating cultural and artistic hybrids that transcended a single tradition. Yet in spite of the remarkable artistic production that resulted from these interchanges, the complex vicissitudes of exchange between Egypt and the Classical world over the course of nearly 2500 years have not been comprehensively explored in a major exhibition or publication in the United States. It is precisely this aspect of Egypt's history, however, that *Beyond the Nile* uncovers. Renowned scholars have come together to provide compelling analyses of the constantly evolving dynamics of cultural exchange, first between Egyptians and Greeks—during the Bronze Age, then the Archaic and Classical periods of Greece, and finally Ptolemaic Egypt—and later, when Egypt passed to Roman rule with the defeat of Cleopatra. *Beyond the Nile*, a milestone publication issued on the occasion of a major international exhibition, will become an indispensable contribution to the field. With gorgeous photographs of more than two hundred rare objects, including frescoes, statues, obelisks, jewelry, papyri, pottery, and

coins, this volume offers an essential and inter-disciplinary approach to the rich world of artistic cross-pollination during antiquity.

ONCE IN NINE LIVES, SOMETHING EXTRAORDINARY HAPPENS. The last thing Gwen Cooper wanted was another cat. She already had two, not to mention a phenomenally underpaying job and a recently broken heart. Then Gwen's veterinarian called with a story about a three-week-old eyeless kitten who'd been abandoned. It was love at first sight. Everyone warned that Homer would always be an "underachiever." But the kitten nobody believed in quickly grew into a three-pound dynamo with a giant heart who eagerly made friends with every human who crossed his path. Homer scaled seven-foot bookcases with ease, survived being trapped alone for days after 9/11 in an apartment near the World Trade Center, and even saved Gwen's life when he chased off an intruder who broke into their home in the middle of the night. But it was Homer's unswerving loyalty, his infinite capacity for love, and his joy in the face of all obstacles that transformed Gwen's life. And by the time she met the man she would marry, she realized that Homer had taught her the most valuable lesson of all: Love isn't something you see with your eyes. Cruising World - 1999-01

Cat Call - Kristen J. Sollee 2019-09-16

"No one writes about the subjects of sexuality, desire, the shadow, and diabolism with such relish, and when I read her words I feel both smarter and less afraid of my own 'tabooed' feelings and thoughts. Like a cat, Kristen sees in the dark, as she guides us gracefully forward with her vision of unapologetic, feminine power." —From the Foreword by Pam Grossman, author of *Waking the Witch: Reflections on Women, Magic, and Power* The cat: A sensual shapeshifter. A hearth keeper, aloof, tail aloft, stalking vermin. A satanic accomplice. A beloved familiar. A social media darling. A euphemism for reproductive parts. An epithet for the weak. A knitted—and contested—hat on millions of marchers, fists in the air, pink pointed ears poking skyward. Cats and cat references are ubiquitous in art, pop culture, politics, and the occult, and throughout history, they have most often been coded female. From the "crazy cat lady" unbowed by patriarchal prescriptions to the coveted sex kitten to the dreadful crone and her yowling compatriot, feminine feline archetypes reveal the ways in which women have been revered and reviled around the world—in Greek and Egyptian mythology, the European witch trials, Japanese folklore, and contemporary film. By combining historical research, pop culture, art analyses, and original interviews, *Cat Call* explores the cat and its indivisible connection to femininity and teases out how this connection can help us better understand the relationship between myth, history, magic, womanhood in the digital age, and our beloved, clawed companions.
