Things to Do Before the End of the World - Emily Barr
2021-05-06

I walked home. I kept hearing footsteps behind me, but every time I turned around, no one

was there ... What would you do when you hear the news that humans have done such damage to the earth that there might only be a limited amount of safe air left - a year's worth at most? You'd work through your bucket list, heal rifts, do everything you've never been brave enough to do before? Olivia is struggling to do any of this. What it is she truly wants to do? Who does she want to be? Then out of the blue comes contact from a long-lost cousin Olivia didn't even know existed. Natasha is everything Olivia wants to be and more. And as the girls meet up for a long, hot last summer, Olivia finds Natasha's ease and self-confidence having an effect on her. But Natasha definitely isn't everything she first appears to be . . .

Factfulness - Hans Rosling
2018-04-03

INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." - Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama
Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's

population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In *Factfulness*, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections,

is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017. Me - Donald Roy 2016-10-24
Congratulations! You have been appointed manager of the world's most important brand. You need not go far to find this brand-you can find it in the mirror. Yes, you are a brand, and no one else has more at

stake for your brand's success than you. Personal branding is an ongoing process; it requires a continuous improvement mindset. However, you have great incentive to embrace personal branding. Intense competition and the ease with which we can connect provide both urgency and opportunity for proactively managing your brand. Consider this book a personal branding instruction manual. We break down the personal branding process to managing the 3Ms of personal branding-Meaning, Makeup, and Message. Me consists of five parts: Part One: The Basics We realize that you may be coming to personal branding with little prior exposure to the concept or branding practices in general. Part One makes the case for the importance of personal branding, addressing misunderstandings, or myths about personal branding, and sharing an overview of branding fundamentals. Too many works on personal branding do not take these issues into consideration, but they are a good starting point

before embarking on your personal branding journey. Part Two: Meaning- Who You Are Great brands are grounded in significance. They have a clear understanding of why they exist, what is happening around them, and what they must do to grow. Similarly, your personal brand cannot be built without this foundation in place. Purpose, passion, a review of your current situation, and goal setting are essential steps to complete before moving on to personal branding tactics. It is not coincidental that Meaning is the starting point for building a personal brand. You cannot create a meaningful, consistent brand without this piece being well defined. Part Three: Makeup- Building the Product Establishing Meaning orients you to what must be done to carry it out. Makeup is the product part of your brand- skill set, mindset, network of connections, and positioning. Meaning is little more than a dream if you do not invest in acquiring the knowledge, skills, attitude, and relationships that

enable you to live your Meaning daily. Part Four: Message- Telling Your Story If you do not have a deep understanding of personal branding, it is possible that you equate personal branding with your online presence. Although use of social media is a prime channel for communicating with others, starting personal branding efforts here could result in Meaning and Makeup not being aligned with your messages. Before getting to the various communication channels available to send messages, reflect on the stories that define your brand. Stories are important pieces of your brand's Message. Beyond stories, you have to be familiar with the many communication channels available to send messages. Which ones are used by the audience you seek to influence serve? How can you use those channels to create value for others while enhancing your brand's exposure? Part Five: Putting it All Together Understanding the roles played by Meaning, Makeup, and Message can go a

long way toward building a distinctive personal brand. However, one final piece remains that closes the loop: measuring effectiveness. Implementing a personal branding strategy must be followed up with evaluating outcomes against goals. If goals give you a target to hit, measuring performance is the check to see how close to the target you got. And, this final M empowers you to adjust your personal branding mix when results fall short of expectations. Relish the privilege of managing the world's most important brand. It can be a daunting responsibility, but the 3Ms framework shared in Me provides a course of action you can implement to create a brand that brings value to others and is rewarding to you.

Learning to Be Human

Again - Matt Landry

2017-04-24

Today, more than ever, we are losing sight of our humanity. You were taught to feel like you don't belong and much of the teaching came from

yourself. You weren't born that way, though. It's time you learned that you are more than enough just as you are right now. Finally, a guide that will help you uncover the human you truly are and the happy, content, relaxed, satisfied, and self-confident person you were meant to be. Do you remember who you were before everyone told you who you should be? Buried deep within our confused, stressed out, and depressed lives is a happy person looking to break free of the chains of what we've been told we should be, and live a life free of the pressures society can place on us. We're told that we need to look a certain way, live a life in accordance with the rules of a specific religion, or make an allotted amount of money. The World around us has become a hurried, chaotic, and technological war on our brains. In What World Do You Live?

- Luis Tijerina 2013
In What World Do You Live? by Chief Luis Tijerina In What World Do You Live: You Have a Choice You Know? is an intriguing autobiography by Chief Luis Tijerina, aka Watching Wolf, of one man's struggle with a life overshadowed by drug and alcohol abuse. During this challenge, he searched deep within and listened intently to his 'inner voice' to initiate changes to the way he felt,

thought, and responded to different events in his life. In doing so, he was able to discover a 'Higher Power' that led him from the Catholic Church, in which he was raised, to a new spiritual world inspired by his Native American heritage and culture. To quote the author, "The purpose of this book is to bring you to an awareness of your inner self in the place where you reside in this world, physically, emotionally, psychologically, and spiritually. ...I have found that many parallel worlds reside together side by side, and it is up to me to put myself where I choose to be for the greater good." After all, "Nothing changes if nothing changes." About the Author Luis Tijerina is a native of Odessa, Texas. He started working in the field of computer technology right after graduating from high school. He opened an IT services business a few years later before he decided to work as a communications manager for an oil well services company. He married at the

age of twenty-five and raised two children. He became the

chief of the tribe in Trans-Pecos Region of Texas in 2005 and still acts as one to this day.
