History of Anesthesia - Virginia Sarah Thatcher 1953

The Swallows of Monte Cassino - Frederika Randall 2013-10-14

The Strega Prize-winning author of *The Girl with a Leica* delivers a novel that hinges on one of the bloodiest World War II battles and those who fought it. In this highly original novel, Janeczek retells the four-month-long Battle of Monte Cassino from the point of view of the Maori, Gurkha, Polish, North African, small-town American and other Allied foot soldiers who fought and died under German fire near that 6th century Benedictine abbey. Twined through the battle is another story, a memory

of the drowned and the saved in Janeczek's own family in wartime Eastern Europe, where Jews who did not go to Nazi death camps went to Soviet gulag camps, and sometimes survived, and even went on to fight at Monte Cassino. A powerful reflection on all the ways that rights can be taken from us. "Helena Janeczek's novel is this: a tattoo etched on the skin, and not painlessly. A vast design that brings together threads from all the various lives that converged in that legendary battle. The beauty of her tale lies in its structure, the way opposites converge: the chaos of battle and the silence of the defeated, ordinariness and the heroism of the powerless, carefully guarded memory and impetuous youth, the past perpetually intertwined with the present." —Roberto Saviano, author of *Gomorra*

Western Attitudes toward Death - Philippe Ariès 1975-08-01

Ariès traces Western man's attitudes toward mortality from the early medieval conception of death as the familiar collective destiny of the human race to the modern tendency, so pronounced in industrial societies, to hide death as if it were an embarrassing family secret. -- Newsweek

Why Are You Afraid? Have You No Faith? - Pope Francis 2021-02-10
The COVID-19 pandemic has left an indelible mark on our lives, and the same is true for the Church. Masses were suspended for months, people could not receive the sacraments, and during that time Pope Francis celebrated Mass alone every day. Why are you afraid? Have you no faith? collects some of the words from the pope's daily homilies when the world was in isolation during the "long Lent" in the spring of 2020, as well as Angelus messages and prayers he delivered. This book is filled with poignant photos that bring to life Pope Francis' words of support and encouragement, especially from his extraordinary blessing "Urbi et Orbi" in an empty St. Peter's Square at the Vatican on March 27, 2020. The dozens of photos in this book illustrate the themes often evoked by the Holy Father during the pandemic, including fraternal love, solidarity, the common good, and the virtue of hope. Commemorating an historically important chapter in both the papacy of Francis and the history of the modern world, this book is another avenue by which the Holy Father

shares his uplifting message of wisdom, hope, and love with those who have suffered in pain, loneliness, and fear. Despite the dire challenges we have faced during this pandemic, Pope Francis reminds us that evil does not destroy confidence in God, and it does not break the solidarity of humanity.

La Responsabilità medica - Nicola Todeschini 2019-06-11

Il volume offre il quadro d'insieme delle regole da applicare alla responsabilità medica a seguito delle novità introdotte dalla riforma Gelli-Bianco. Vengono affrontati i temi di maggior attualità quali: l'accertamento tecnico preventivo grazie all'analisi di numerosi casi pratici, risolti dalla giurisprudenza di merito il nuovo discusso assetto della responsabilità penale dopo le sezioni unite l'analisi delicata del rapporto medico paziente il valore da assegnare alle linee guida la corretta configurazione dei titoli di responsabilità impegnati Un ampio approfondimento è dedicato inoltre alle nuove chance di riparazione del danno da violazione del diritto all'autodeterminazione, senza dimenticare il ruolo del consulente medico legale.

The Impossible Lives of Greta Wells - Andrew Sean Greer 2013-06-25
From the critically acclaimed author of the New York Times bestseller *The Confessions of Max Tivoli* comes *The Impossible Lives of Greta Wells*, a rapturously romantic story of a woman who finds herself transported to the “other lives” she might have lived. After the death of her beloved twin brother and the abandonment of her long-time lover, Greta Wells undergoes electroshock therapy. Over the course of the treatment, Greta finds herself repeatedly sent to 1918, 1941, and back to the present. Whisked from the gas-lit streets and horse-drawn carriages of the West Village to a martini-fueled lunch at the Oak Room, in these other worlds, Greta finds her brother alive and well—though fearfully masking his true personality. And her former lover is now her devoted husband...but will he be unfaithful to her in this life as well? Greta Wells is fascinated by her alter egos: in 1941, she is a devoted mother; in 1918, she is a bohemian adulteress. In this spellbinding novel by Andrew Sean Greer, each reality has its own losses, its own rewards; each extracts a different price. Which life will she choose as she wrestles with the unpredictability of love and the consequences of even her most carefully considered choices?

Asylums - Erving Goffman 2017-09-08

A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed,

formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue—the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.

Offers a revolutionary perspective on adversity that will empower you to cooperate with your own destiny, live a far more effective life, and heal even the deepest wounds of the heart.

Il suicidio - Émile Durkheim 2012-11-30

Il suicidio è un problema di tutti. Una scelta privata che richiede discrezione e rispetto, ma le cui cause interpellano la responsabilità collettiva. Perché ci si toglie la vita? Perché si suicidano più gli uomini delle donne? Perché in certi Paesi più che in altri? Émile Durkheim alla fine dell'Ottocento sottolineò come la mancanza d'integrazione degli individui nella società fosse una delle cause fondamentali del suicidio. Un'analisi acuta e insuperata, che studia il problema dal punto di vista sociale, e segna una svolta non solo per la filosofia, ma anche per la psicoanalisi e la biologia. Arricchisce il volume un'ampia e aggiornata analisi delle ricerche, sociologiche e statistiche, condotte fino a oggi, che aiutano a capire il fenomeno forse più misterioso e inesplicabile dell'aggressività umana.

Medicine Cult - John Virapen 2011

Just as the "all powerful" Wizard of Oz was unmasked in the 1939 film classic, the men behind the curtain who are controlling the pharmaceutical industry are about to be exposed! Whether you know it or not, the pharmaceutical industry (lovingly referred to as Big Pharma) controls many facets of your life - making the world a "medicine cult." The frightening thing is that the "cabal" is deeply mired in politics, deception, scandal and corruption. Instead of having the health and welfare of its customers in mind, many of those in control are primarily focused on money. Yet, thanks to skillful marketing tactics, everything seems rosy and everyone depends on the latest drug to combat their health woes. The author, John Virapen, has been called THE Big Pharma Insider. During his 35 years in the pharmaceutical industry internationally (most notably as general manager of Eli Lilly and Company in Sweden), Virapen was responsible for the marketing of several drugs, all of them with side effects. He shocked the world with

his first tell-all confessional, "Side Effects: Death - Confessions of a Big Pharma Insider." Now he is ready to take on the "powers that be" again with this explosive followup!

Get Us Out of Here!! - Nicky Eltz 2002-12-01

Dear Reader, What you are now holding is a most interesting book. The world beyond is speaking. It is offering advice, asking for help and giving answers. It exists and speaks about life -- our life here on earth and of possible consequences of our behaviour. It tells us that it is not the same to be humble, loving, good, merciful, loyal and honest as it is to be proud, loveless, bad, merciless, betraying and dishonest. At death this is not forgotten but rather remembered in total clarity. Not only is the punishment, or better yet the cleansing, spoken about; but also the length of this cleansing is so very much more. Then you ask yourself, is it possible? In the Catholic church one speaks about a transitory state which for a very long time has been referred to as Purgatory. Despite there being different theories, this state is always taken seriously. One needs it because one can only come before God cleansed and pure.

Credimi! Sono un bugiardo - Ryan Holiday 2014-04-28T00:00:00+02:00

Un saggio caustico e provocatorio, scritto come un romanzo, dove l'autore ci racconta dei suoi anni passati a creare finte notizie per attirare attenzione nei confronti di alcuni prodotti dei suoi clienti. Un libro fondamentale per tutti coloro che vogliono capire come, partendo da un piccolo blog di provincia fino a diventare una vera e propria notizia ufficiale, le informazioni possano (e vengano) manipolate dalla Rete e dai Media.

The First Century After Beatrice - Amin Maalouf 1995

In the 21st Century, a drug that guarantees the birth of boys--originally developed to reduce Third World populations--leads to a worldwide shortage of women. The result is an explosion of male violence, wars, and the sale of women on the black market. The narrator is a French entomologist trying to eradicate the drug.

Segnali rassicuranti sui modi e mezzi per combattere le malattie, segnali inquietanti sui rischi - individuali e collettivi - per la salute, giungono dalla società in cui viviamo. Il controllo della patologia e l'uso razionale dei farmaci, le condizioni socioambientali patogene e il protrarsi dei tempi di vita assistita per la popolazione anziana, la politica della salute e l'organizzazione sanitaria, il rapporto tra sanità pubblica e privata, l'assistenza negli ospedali e a domicilio, la medicina di base e la medicina di vertice, la formazione del medico di oggi e di domani, la bioetica delle nascite e delle morti, le prospettive aperte dalle biotecnologie e dalla manipolazione genetica, la socializzazione della medicina e la

medicalizzazione della società, le variabili sanitarie della crescente globalizzazione e gli aspetti medici di una società multietnica, sono temi e problemi che esigono una riflessione critica, la quale non può non passare anche attraverso la storia. La «grande storia» può essere arricchita non poco dalla «piccola storia» di idee ed eventi relativi al nostro benessere. Dare voce a una umanità - fatta di pazienti e di curanti, di infermieri e di medici, di religiosi e di laici, di ricercatori e di politici, di imprenditori e di operai - che ha scritto, essa per prima, la «storia della medicina e della sanità», è lo scopo di questa collana, che viene a situarsi in un contesto poco e non adeguatamente esplorato. Giorgio Cosmacini, Vittorio A. Sironi Attraverso studiosi, pensatori e clinici del più remoto e del più recente passato, come Ippocrate, René Favaloro, Averroè, Samuel Hahnemann, Paracelso, Vesalio, Semmelweis e altri ancora, gli autori ripercorrono il sentiero accidentato della storia della medicina. Un racconto, dunque, della rivoluzione del pensiero medico che si è sviluppato attraverso continue eresie e scontri con il pensiero dominante, quasi sempre contro il potere politico, spesso contro le dottrine religiose, per la salvaguardia dell'uomo.

Dying to Know You - Aidan Chambers 2012-04-23

A teenager discovers his voice in this contemporary love story from "one of young adult literature's greatest living writers" (Booklist). Shy teenager Karl is desperately in love with his girlfriend, Fiorella, a literary enthusiast who's asked him to write her a letter in which he reveals his true self. There's just one problem . . . Karl is dyslexic. Convinced that his attempts to express himself with words will end in disaster, Karl tracks down Fiorella's favorite novelist and begs him to take up the task. The famous writer unexpectedly agrees, but on one condition: Karl must

participate in a series of interviews so the author can pen an authentic portrait of his affections. What follows is a series of misunderstandings, a startling revelation, and an unusual bond that will change all three of their lives. A moving story of love and friendship, *Dying to Know You* is the perfect novel for “that cloudy expanse between older teenager and younger adult, a novel that doesn’t pretend to advise, but merely sees its characters for who they really are” (The Guardian). “This quietly understated performance captures the wistfulness of music in a minor key.” —Kirkus Reviews

Diaboliad - Mikhail Bulgakov 2016-03-22

“Bulgakov’s strong point was his ability to amplify the roots of man’s dementia, the howls of political pandemonium . . . a lively collection.” —The Washington Post Book World Mikhail Bulgakov’s *Diaboliad* and

Other Stories, comprised of *Diaboliad*, No. 13–The Elpit Workers’ Commune, *A Chinese Tale*, and *The Adventures of Chichikov*, serves as an excellent introduction to this renowned Russian satirist and playwright’s work. Black comedy, biting social and political commentary, and Bulgakov’s unique narrative exuberance combine to tell the tales of labyrinthine post-Revolution bureaucracy; clashes between science, the intellectual class, and the state; and the high price to be paid for the promised utopian world of Communism in early Soviet Russia. Bulgakov’s signature eloquent skewering of the various shortcomings of the world around and within him can be found on every page, and horror and magic interweave in a constant dance of the absurd—a dance that would reach its highest point both stylistically and thematically in Bulgakov’s tour de force novel *The Master and Margarita*. “One of the most original voices of the twentieth century.” —The Guardian, UK
