**From Strength to Strength** - Arthur C. Brooks 2022-02-15

The roadmap for finding purpose, meaning, and success as we age, from bestselling author, Harvard professor, and the Atlantic's happiness columnist Arthur Brooks. Many of us assume that the more successful we are, the less susceptible we become to the sense of professional and social irrelevance that often accompanies aging. But the truth is, the greater our achievements and our attachment to them, the more we notice our decline, and the more painful it is when it occurs. What can we do, starting now, to make our older years a time of happiness, purpose, and yes, success? At the height of his career at the age of 50, Arthur Brooks embarked on a seven-year journey to discover how to

transform his future from one of disappointment over waning abilities into an opportunity for progress. From Strength to Strength is the result, a practical roadmap for the rest of your life. Drawing on social science, philosophy, biography, theology, and eastern wisdom, as well as dozens of interviews with everyday men and women, Brooks shows us that true life success is well within our reach. By refocusing on certain priorities and habits that anyone can learn, such as deep wisdom, detachment from empty rewards, connection and service to others, and spiritual progress, we can set ourselves up for increased happiness. Read this book and you, too, can go from strength to strength.

Tom shares twenty-five bold steps to a happy, positive, fulfilled and engaged retirement. And why is this subject so important today? The Baby Boomer Factor. There is staggering data on the consequences of 78 million Baby Boomers (those born between 1946 and 1964) who will be entering the rolls of retirement, over the next three to six years. Research shows that most of this age group has done little or no preparation, for this life changing event! And, they have little or no savings to carry them through these retirement decades ahead, and no clue, or plans for meaningful activities or relationships during this next third of their lives! Today we are told that after only one year of retirement, 60% to 70% of retired people are unhappy and disappointed with their quality of life!
