Diary of a Breast Cancer Husband - J. Scott Lyman 2002

Diary of a Breast Cancer Husband is an extraordinarily intimate and brutally revealing chronicle of one man's personal and psychological journey with his wife down the path of breast cancer diagnosis and treatment. Scott is a successful malpractice attorney. His beautiful wife, Suanne, is his office administrator and business manager. They live on top of a ravine overlooking the Pacific Ocean. They have three sons, the youngest still in high school. Life has been good to Scott and Suanne. Then breast cancer strikes. Scott's reaction is one of consuming guilt and fear. His fear is not just for his wife. He also fears his own reaction to the possible changes he may face in his own life as a result of breast cancer. His response is to immerse himself in the world of breast cancer and write about men and breast cancer, and about men and breasts.

Great Big Beautiful Tomorrow - Cory Doctorow 2011-11-01

Cory Doctorow burst on the SF scene in 2000 like a rocket, inspiring awe in readers (and envy in other writers) with his bestselling novels and stories, which he insisted on giving away via Creative Commons. Meanwhile, as coeditor of the wildly popular blog Boing Boing, he became the radical new voice of the Web, boldly arguing for internet freedom from corporate control. Doctorow's activism and artistry are both on display in this Outspoken Author edition. The crown jewel is his novella *The Great Big Beautiful Tomorrow*, the high-velocity adventures of a transhuman teenager in a toxic post-Disney dystopia, battling wireheads and wumpuses (and having fun doing it!) until he meets the "meat girl" of his dreams, and is forced to choose between immortality and sex. Plus a live transcription of Cory's historic address to the 2010 World SF Convention, "Creativity vs. Copyright," dramatically presenting his controversial case for open-source in both information and art. Also included is an international Outspoken Interview (Skyped from England, Canada, and the U.S.) in which Doctorow reveals the surprising sources of his genius.

What Remains - Carole Radziwill 2007-06-05

The author traces her life and marriage to Anthony Radziwill, President Kennedy's nephew, in an account that describes her work as a journalist, her friendship with JFK, Jr., and his wife, and her husband's struggle with terminal cancer.

The Gale Encyclopedia of Nursing & Allied Health: A-C - Kristine M. Krapp 2002

A Safe Place - Jennifer Pike 1999

Bargain Books are non-returnable. Written by a breast cancer survivor, "A Safe Place" fills a niche that other works on the subject have not. Focusing on the therapeutic value of journal writing, this book takes a fundamentally positive look at breast cancer and the personal growth that can come out of such a battle. While offering practical medical information, "A Safe Place" encourages a woman to start writing about her experiences, providing a private venue to explore feelings, confront fears, and regain peace and equilibrium in the midst of illness and the process of recovery. With a comprehensive resource guide and reading list, and inspiring quotations from other women who have shared this experience, "A Safe Place" is a valuable tool in the fight to become a survivor, both physically and psychologically.

Holding Tight, Letting Go - Sarah Hughes 2022-03-31

'Too often we minimise the reality of terminal cancer, concentrating instead on survival records and talking only in positive pink ribbon terms. But what of those who live daily with the shadow of the disease? This is a book about how that feels. It is about how to die as much as about to how to live; yet it is also life-affirming, funny and shot through with hope.' Life is full of small details that we tuck away somewhere to revisit when we need them most: the calming sound of the sea, that childlike joy when you feel the sun hit your face on an early February morning. These small details knitted together, make up our perfect, ordinary lives. Few understood the importance of these more than Sarah Hughes, who lived with terminal metastatic cancer for over three years and who died in April 2021. This book is a celebration of everything that can make up a life, and how to hold it all close: how to cherish the perspective-changing, exhale-bringing perspective of a trashy novel; how to find the upside of chemo (finally being able to fit into flippy french tea dresses); how to explore the intimate topography of a body that's yours and yours alone. For fans of Matt Haig and Maggie O'Farrell, this is a tender word-of-mouth bestseller: the sort of book you'll press into the hands of your friends, family and a stranger in a bookshop.

Let's Talk Lymphoedema - Peter Mortimer 2017-05-25

Holding Tight, Letting Go - Musa Mayer 1997

The eloquent voices in *Holding Tight, Letting Go* speak of different reality; that women with metastatic breast cancer generally go on to live with their disease, often for many years, and that the time they have can be full and meaningful. All aspects of dealing with the disease are covered here: coping with the shock of recurrence, seeking information, making treatment decisions, and communicating effectively with medical

personnel. Getting emotional support from other patients and friends and working on relationship and family issues are often as important as managing the side-effects of treatment and the pain and symptoms of disease progression. Open discussions about approaching the end of life often lead to a profound inquiry into ways of keeping hope alive and finding meaning in the midst of adversity. Frank and moving descriptions from forty women and men who have been there make their stories relevant to anyone facing a life-threatening illness.

Communicating to Manage Health and Illness - Dale E Brashers 2009-08-11

Communicating to Manage Health and Illness is a valuable resource for those in the field of health and interpersonal communication, public health, medicine, and related health disciplines. This scholarly edited volume advances the theoretical bases of health communication in two key areas: 1) communication, identity, and relationships; and 2) health care provider patient interaction. Chapters aim to underscore the theory that communication processes are a link between personal, social, cultural, and institutional factors and various facets of health and illness. Contributors to the work are respected scholars from the fields of communication, public health, medicine nursing, psychology, and other areas, and focus on ways in which patient identity is communicated in health-related interactions. This book serves as an excellent reference tool and is a substantial addition to health communication literature.

Reconstructing Illness - Anne Hunsaker Hawkins 1999

Serious illness and mortality, those most universal, unavoidable, and frightening of human experiences, are the focus of this pioneering study which has been hailed as a telling and provocative commentary on our times. As modern medicine has become more scientific and dispassionate, a new literary genre has emerged: pathography, the personal narrative concerning illness, treatment, and sometimes death. Hawkins's sensitive reading of numerous pathographies highlights the assumptions, attitudes, and myths that people bring to the medical encounter. One factor emerges again and again in these case studies: the tendency in contemporary medical practice to focus primarily not on the needs of the individual who is sick but on the condition that we call disease. Pathography allows the individual person a voice - one that asserts the importance of the experiential side of illness, and thus restores the feeling, thinking, experiencing human being to the center of the medical enterprise. Recommended for medical practitioners, the clergy, caregivers, students of popular culture, and the general reader, *Reconstructing Illness* demonstrates that only when we hear both the doctor's and the patient's voice will we have a medicine that is truly human.

Exposed to You - Beth Kery 2012-11-06

From the author of the unforgettable *Because You Are Mine... Losing control is just the beginning...* "What would you do if the sexiest man in the world was bent on bringing you unbearable pleasure again and again? Joy Hightower wasn't sure she could survive the experience...or live without it." It's not often you're hired to paint a body tattoo—and what a body—on a total stranger at a Hollywood film set. A reserved and careful art teacher, Joy would never forget it. In a rare fit of raw desire she gave herself completely, knowing she'd never see him again, or ever repeat such a shameless, naked impulse. Little did she know, the man with whom she shared that lightning bolt of lust was star Everett Hughes. For Everett, women and sex came as easily as fame. But how could he hope to convince the guarded Joy that beneath the hard body and sexy façade of celebrity was a real man who wanted only one, real woman? In the heat of an intoxicating affair, Everett endeavors to break down her barriers, gain her trust, and expose himself as the real deal. But can Joy do the same, and reveal to him the vulnerable woman who longs to be loved, wanted, and desired forever?

When Breath Becomes Air - Paul Kalanithi 2016-01-12

#1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. *When Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student "possessed," as he wrote, "by the question of what, given that all organisms die, makes a virtuous and meaningful life" into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. "I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything," he wrote. "Seven words from Samuel Beckett began to repeat in my head: 'I can't go on. I'll go on.'" *When Breath Becomes Air* is an unforgettable,

life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

Night Studio - Musa Mayer 2016-04

Philip Guston (1913-1980) is one of the outstanding figures in twentieth century American art. Beginning as a muralist in the thirties, Guston embraced the lyrical vocabulary of Abstract Expressionism in his paintings and drawings after his move to the East Coast. Following an artistic crisis in the mid-sixties, his return to figuration focusing first on simple things of ordinary life, later evolving to the enigmatic and iconic cartoonlike forms for which he is now best known shook the art world.

Night Studio is a deeply personal account of growing up in the shadow of a great artist, a daughter's quest to better understand her father, based on letters and notes by the artist, and interviews with those who knew him. First published to critical acclaim in 1988, this beautifully designed new edition is richly illustrated with a new selection of photographs and paintings, many in color. Also available: Philip Guston: Drawings for Poets ISBN 9783944874197 Philip Guston: Prints ISBN 9783944874180

*That Sh*t Called Cancer* - Jaymee Wins 2021-02-22

Written by a San Diego-based Filipina cancer survivor, "That Sh*t Called Cancer" is a candid tell-all that talks about the psychological and emotional challenges that come with the dreaded diagnosis and how to win your life back no matter how hard it may seem. In the book, 41-year old Jaymee, who had 4 cancer recurrences in the span of 5 years while living far away from her family, shares her inspiring story by detailing the emotional "stages" she went through, the self-sabotaging thoughts that kept her up many nights, and the winning affirmations that she used to get herself out of bed each morning. She also writes how it's possible to date after a diagnosis, to flaunt a bikini body after multiple surgeries, and to still live life to the fullest even in between chemo sessions. This book aims to help and support anyone who's ever had to deal with cancer by proving that you can keep on WINNING... but it all starts with making that choice.
