The Tenth Chamber - Glenn Cooper 2010-05-25
Abbey of Ruac, rural France: A medieval script is discovered hidden behind an antique bookcase. Badly damaged, it is sent to Paris for restoration, and there literary historian Hugo Pineau begins to read the startling fourteenth-century text. Within its pages lies a fanciful tale of a painted cave and the secrets it contains - and a rudimentary map showing its position close to the abbey. Intrigued, Hugo enlists the help of archaeologist Luc Simard and the two men go exploring. When they discover a vast network of prehistoric caves, buried deep within the cliffs, they realise that they've stumbled across something extraordinary. And at the very core of the labyrinth lies the most astonishing chamber of all, just as the manuscript chronicled. Aware of the significance of their discovery, they set up camp with a team of experts, determined to bring their find to the world. But as they begin to unlock the ancient secrets the cavern holds, they find themselves at the centre of a dangerous game. One 'accidental' death leads to another.And it seems that someone will stop at nothing to protect the enigma of the tenth chamber ...

Library Of The Dead - Glenn Cooper 2012-07-03
An ancient knowledge. A conspiracy of silence. A secret to kill for. On the seventh day of the seventh month, the seventh son of a seventh son is born to ominous prophecy on the Isle of Wight. Centuries later, in 1947, Winston Churchill is called out of retirement to deal with an unprecedented archaeological discovery that threatens to derail postwar reconstruction. Soon afterwards, in Roswell, New Mexico, an alleged UFO sighting heralds the establishment of a secret military complex in Nevada—a base that comes to be known as Area 51. In present-day New York City, Will Piper is reluctantly forced to interrupt his dissolute spiral into retirement when his superiors at the FBI assign him to the high profile Doomsday serial-murder case. The victims have nothing in common, except for one detail—each of them received a postcard foretelling their date of death. But just when Piper finds a credible lead, he's taken off the case.

Continuing the investigation on his own, he must outwit the ruthless team of covert operatives from Area 51 who are protecting the government's greatest secret. From a medieval monastery to a cutting-edge government laboratory, Library of the Dead spans centuries and continents to deliver a richly detailed, highly researched and sharply written exploration of fate and free will.

Book Of Souls - Glenn Cooper 2012-07-03
Book of Souls picks up the action a year after the conclusion of the international sensation Library of the Dead. Will Piper's life has been forever changed by the astonishing secret he discovered hidden at the government's clandestine installation deep under the Nevada desert. His uneasy retirement from the FBI is interrupted when a long-missing book surfaces at an auction house in London. A group of ex-Area 51 employees recruits Will to assist them in obtaining the book and in helping them solve a mystery that will affect the fate of all mankind. As government operatives try to stop him, Will discovers the ancient missing volume has had a profound effect on history. Remarkably, a newly found puzzle sonnet by a young William Shakespeare seems to have been inspired by the book. As Will peels back the onion to solve a series of clues hidden in the poem, he finds the book has influenced not only Shakespeare but also the religious philosophy of John Calvin, the father of predestination, and the prophesies of the seer Nostradamus. When the final clue yields the ultimate secret, Will is forced to confront a truth which humanity may not be prepared to accept.
