Bread of Dreams - Piero Camporesi 1996-11-15

In a rich and engaging book that illuminates the lives and attitudes of peasants in preindustrial Europe, Piero Camporesi makes the unexpected and fascinating claim that these people lived in a state of almost permanent hallucination, drugged by their very hunger or by bread adulterated with hallucinogenic herbs. The use of opiate products, administered even to infants and children, was widespread and was linked to a popular mythology in which herbalists and exorcists were important cultural figures. Through a careful reconstruction of the everyday lives of peasants, beggars, and the poor, Camporesi presents a vivid and disconcerting image of early modern Europe as a vast laboratory of dreams. "Camporesi is as much a poet as a historian. . . . His appeal is to the senses as well as to the mind. . . . Fascinating in its details and compelling in its overall message."—Vivian Nutton, *Times Literary Supplement* "It is not often that an academic monograph in history is also a book to fascinate the discriminating general reader. Bread of Dreams is just that."—Kenneth McNaught, *Toronto Star* "Not religion but bread was the opiate of the poor, Mr. Camporesi argues. . . . Food has always been a social and mythological construct that conditions what we vainly imagine to be matters of personal taste. Our hunger for such works should tell us that food is not only good but essential to think and to read as if our lives depended on it, which they do."—Betty Fussell, *New York Times Book Review*

The New Ethical and Legal Frontiers in the Use and Storage of Human Tissues for Research - Valeria Eboli 2013

Sicily - Giancarlo Caldesi 2016-10-20

In Sicily, Italian aficionados Katie and Giancarlo Caldesi head to the island to immerse themselves in its diverse food scene, and soak up the varied landscapes. Thanks to its rich history Sicilian food has Italian, Greek, Spanish, French and Arab influences, making the food full of exotic flavours and extremely delicious. Starting in the capital, Palermo, the couple come across some exciting street food that features tasty Arancini (rice balls stuffed with meat sauce and cheese) to Sfincione, a thick Sicilian pizza, topped with tomatoes, onions, anchovies and casciocavallo cheese. Heading to Noto, almonds feature in some of Italy's most memorable desserts including a classic Semifreddo to a refreshing Almond Granita (served with fresh brioche, for dunking). No Sicilian book would be complete without Pasta Alla Norma (pasta with tomatoes and eggplants) and the classic, ricotta-filled sweet delight Cannoli. Join Katie and Giancarlo as they wander along the Arab domes and arches, Byzantine mosaics, baroque stucco work and Norman palace walls. Sicily is a stunning cookbook and visual feast of one of Italy's most amazing destinations.

The House of Impossible Loves - Cristina López Barrio 2013

Cursed to suffer tragic love affairs and give birth to equally cursed daughters, a family of women in 20th-century Spain and France and their colorful inner circle watch over a youngest daughter's passionate affair with a landowner who leaves her pregnant and determined to make redemptive changes. 30,000 first printing.

The Gypsies - Jan Yoors 1987-09-01

At the age of twelve, Jan Yoors ran away from his cultural Belgian family to join a wandering band, a kumpania, of Gypsies. For ten years, he lived as one of them, traveled with them from country to country, shared both their pleasures and their hardships and came to know them as no one, no outsider, ever has. Here, in this firsthand and highly personal account of an extraordinary people, Yoors tells the real story of the Gypsies fascinating customs and their never-ending struggle to survive as free nomads in a hostile world. He vividly describes the texture of their daily life: the Gypsies as lovers, spouses, parents, healers, and mourners; their loyalties and enmities; their moral and ethical beliefs and practices; their language and culture; and the history and traditions behind their fierce pride. The exultant celebrations, the daring frontier crossings, the yearly horse fairs, the convoluted business deals in which Gypsy shrewdness combined with all the apparatus of modern technology are all brought to life in this memorable portrait of the most romanticized, yet most maligned and least-known people on earth. An insiders story, *The Gypsies* lifts the veil of secrecy that for so long has enshrouded this race of strangers in our midst.

Monsieur Monde Vanishes - Georges Simenon 2004

Monsieur Monde is a successful middle-aged businessman in Paris. One morning he walks out on his life, leaving his wife asleep in bed, leaving everything. Not long after, he surfaces on the Riviera, keeping company with drunks, whores and pimps, with thieves and their marks. A whole new world, where he feels surprisingly at home—at least for a while. Georges Simenon knew how obsession, buried for years, can come to life, and about the wreckage it leaves behind. He had a remarkable understanding of how bizarrely unaccountable people can be. And he had an almost uncanny ability to capture the look and feel of a given place and time. *Monsieur Monde Vanishes* is a subtle and profoundly disturbing triumph by the most popular of the twentieth century's great writers.

Methods and Approaches in Forest History - Mauro Agnoletti 2000

A companion to *Forest History: International Studies on Socioeconomic and Forest Ecosystem Change* which includes over 20 papers from the same conference. This book focuses on the different approaches and methods adopted in the study of forest history. The interdisciplinary nature of these studies is emphasized, bringing in the different perspectives of anthropologists, botanists, ecologists, foresters, historians, geneticists and geographers. This volume demonstrates the rich diversity of approaches and methods to forest history and the need to integrate them to give a more meaningful understanding of human-nature interactions, making forest history a more effective tool for the management of forest ecosystems.

13, rue Thérèse - Elena Mauli Shapiro 2011-02-02

American academic Trevor Stratton discovers a box full of artifacts from World War I as he settles into his new office in Paris. The pictures, letters, and objects in the box relate to the life of Louise Brunet, a feisty, charming Frenchwoman who lived through both World Wars. As Trevor examines and documents the relics the box offers up, he begins to imagine the story of Louise Brunet's life: her love for a cousin who died in the war, her marriage to a man who works for her father, and her attraction to a neighbor in her building at 13 rue Thérèse. The more time he spends with the objects though, the truer his imaginings of Louise's life become, and the more he notices another alluring Frenchwoman: Josianne, his clerk, who planted the box in his office in the first place, and with whom he finds he is falling in love.

Drugs and Foods from Little-Known Plants - Siri von Reis Altschul 2013-10

The medicinal properties of plants have been of interest to society for centuries and continue to be a subject of modern research. Yet too often research has been predicated upon poorly identified plant material and secondary sources of information. Much of what we know about the use of plants as drugs, poisons, foods, and as instruments of magical or religious practice derives from lore inherited from the clay tablets and papyri of the ancients and from compilations of early Greek, Arabic, and Indian physicians. Meanwhile, information pertaining to plant parts used even now in the daily life of peoples far removed from the influence of modern medical and health practices has been largely overlooked. With the encroachment of civilized cultures on primitive societies, unique traditions—often unwritten—are being destroyed. In many instances, the very plants involved are disappearing. Not infrequently, the only record, where one exists at all, of these vanishing pools of knowledge is that of the botanical field worker. For no matter what chemical or biological investigations may follow, the botanist can affix to an actual specimen, as

he collects it in the field, the local terms applied to the plant and a description of native medicinal or other uses. Dr. Altschul has compiled field notes of health and medical interest on over 5,000 species of plants, culled from some 2,500,000 specimens of higher plants collected by field botanists from all over the world and deposited in the combined collections of the Arnold Arboretum and Gray Herbarium of Harvard University. The resulting catalogue represents a unique approach to supplying new investigational leads to researchers seeking biologically active plant principles. Dr. Altschul's meticulous sheet-by-sheet examination of the Harvard collections provides the pharmacognosist, pharmacologist, and others in the medical and health sciences with an extensive firsthand survey of the domestic medicines of many cultures. These previously unpublished botanists' notes are here made available in a comprehensive publication that should become an important resource for every investigation into the area of medicinal phytochemistry. Indexes to families and genera are provided, as well as a medical index referring to diseases and to therapeutic properties for researchers intent on locating plants with special medicinal capacities. The author is a Research Fellow at the Botanical Museum of Harvard University.

Vaclav and Lena - Haley Tanner 2011-05-17

Set in New York's Russian émigré community, *Vaclav & Lena* is a timeless love story from a stunningly gifted young novelist. Vaclav and Lena, both the children of Russian émigrés, are at the same time from radically different worlds. While Vaclav's burgeoning love of performing magic is indulged by hard-working parents pursuing the American dream, troubled orphan Lena is caught in a domestic situation no child should suffer through. Taken in as one of her own by Vaclav's big-hearted mother, Lena might finally be able to blossom; in the naive young magician's eyes, she is destined to be his "faithful assistant"...but after a horrific discovery, the two are ripped apart without even a goodbye. Years later, they meet again. But will their past once more conspire to keep them apart?

[The Noma Guide to Fermentation](#) - René Redzepi 2018-10-16

New York Times Bestseller A New York Times Best Cookbook of Fall 2018 "An indispensable manual for home cooks and pro chefs." —Wired At Noma—four times named the world's best restaurant—every dish includes some form of fermentation, whether it's a bright hit of vinegar, a deeply savory miso, an electrifying drop of garum, or the sweet intensity of black garlic. Fermentation is one of the foundations behind Noma's extraordinary flavor profiles. Now René Redzepi, chef and co-owner of Noma, and David Zilber, the chef who runs the restaurant's acclaimed fermentation lab, share never-before-revealed techniques to creating Noma's extensive pantry of ferments. And they do so with a book conceived specifically to share their knowledge and techniques with home cooks. With more than 500 step-by-step photographs and illustrations, and with every recipe approachably written and meticulously tested, *The Noma Guide to Fermentation* takes readers far beyond the typical kimchi and sauerkraut to include koji, kombuchas, shoyus, misos, lacto-ferments, vinegars, garums, and black fruits and vegetables. And—perhaps even more important—it shows how to use these game-changing pantry ingredients in more than 100 original recipes. Fermentation is already building as the most significant new direction in food (and health). With *The Noma Guide to Fermentation*, it's about to be taken to a whole new level.

[Macmillan Dictionary of Anthropology](#) - Charlotte Seymour-Smith 1986

4e de couverture : Anthropology is one of the most challenging and rapidly expanding areas of human knowledge today. This Dictionary aims to be a useful guide to the subject for the student and interested layman as well as for the academic anthropologist. It is unique in the existing literature in providing in a single volume coverage of basic concepts, key theoretical issues and the work of some 250 British, American and European anthropologists. It covers the subject from the early ethnographers to the most recent research, offering clear definitions of such formidable topics as the work of Levi-Strauss or the influence of semiology. The 2000 entries are fully cross-referenced and are supplemented by an extensive bibliography. Aimed primarily at students, it should provide useful reference not only for anthropologists, but for students of related disciplines at a time when the academic reputation of the subject, and the need for historians, sociologists, political scientists among others to be familiar with its central concepts and thinkers has never been so great.

Bread Is Gold - Massimo Bottura 2017-11-06

Massimo Bottura, the world's best chef, prepares extraordinary meals from ordinary and sometimes 'wasted' ingredients inspiring home chefs to eat well while living well. 'These dishes could change the way we feed the world, because they can be cooked by anyone, anywhere, on any budget. To feed the planet, first you have to fight the waste', Massimo Bottura Bread is Gold is the first book to take a holistic look at the subject of food waste, presenting recipes for three-course meals from 45 of the world's top chefs, including Daniel Humm, Mario Batali, René Redzepi, Alain Ducasse, Joan Roca, Enrique Olvera, Ferran & Albert Adrià and Virgilio Martínez. These recipes, which number more than 150, turn everyday ingredients into inspiring dishes that are delicious, economical, and easy to make.

Plants for People - Anna Lewington 1990-01-01

"Plants for People" gives us an insight into the countless, often surprising

ways in which we use plants--from the woodpulp in our clothing and the soya in fast food, to new medicines from daffodil bulbs for Alzheimer's, yew leaves and hazelnuts for cancers, and sunflower seeds providing cleaner fuel for our cars. Plants are essential to our lives, yet the ways in which we manage them are seriously harming people and environments worldwide. "Plants for People" considers practical and ethical issues such as organic production, bio-piracy and the Fairtrade movement. Its mission is to help us save the diversity of plant life on earth, and to treat as equals the millions of people whose knowledge and services support us every day.

Fitness Medicine - Hasan Sozen 2016-10-26

Although fitness and health have similar properties, they are, in reality, two very different concepts. While health refers to the absence of diseases, fitness refers to the degree of body functioning and the ability of the body to handle physical demands. The more efficient the body functions, the higher the level of fitness. The higher the level of fitness, the greater the chance of the body being free of diseases and maintaining a healthy state.

Confetti Confidential - Holly McQueen 2011-03-08

Having realized that fashion design may not be the best profession for her, Isabel Bookbinder has made another career move - this time, into the world of wedding planning! She's still the ditzzy, adorable heroine that we love, and her early misadventures include brides being delivered to the wrong ceremony, brides not actually turning up at all - that sort of thing! But despite all that, she is really beginning to get quite good at her job. She's landed a big celebrity client, and she's moved in with her perfect lawyer boyfriend, Will - and this time, it's for good. So when her best friend gets engaged to her brother, it seems like the universe is finally aligning in Isabel's favor - that is, until Will becomes increasingly reluctant to discuss their future... Will Isabel be able to pull off the wedding that could make or break her career? Can she ever measure up in her father's eyes? And will she ever have a wedding day all of her own? With her characteristic humor, charm, and tendency to stumble into sticky situations, Isabel Bookbinder is an irresistible heroine you're sure to fall in love with.
