Bookmarks - A manual for combating hate speech online through human rights education - 2014-05-13

The work of the Council of Europe for democracy is strongly based on education: education in schools, and education as a lifelong learning process of practising democracy, such as in non-formal learning activities. Human rights education and education for democratic citizenship form an integral part of what we have to secure to make democracy sustainable. Hate speech is one

of the most worrying forms of racism and discrimination prevailing across Europe and amplified by the Internet and social media. Hate speech online is the visible tip of the iceberg of intolerance and ethnocentrism. Young people are directly concerned as agents and victims of online abuse of human rights; Europe needs young people to care and look after human rights, the life insurance for democracy. Bookmarks is published to support the No Hate Speech Movement youth campaign of the Council of Europe for human rights online. Bookmarks is useful for educators wanting to address hate speech online from a human rights perspective, both inside and outside the formal education system. The manual is designed for working with learners aged 13 to 18 but the activities can be adapted to other age ranges.

A People's History of Heaven - Mathangi Subramanian 2019-03-19
"Everything about A People's History of Heaven is wonderful:

the lyrical, light touch of the narrator, the story, the humor, and most of all, the girls. Faced with bigotry and bulldozers, these girls know exactly what to do: stick together and help each other learn, love, see, fight. These are girls who save the world." —Minal Hajratwala, award-winning author of *Leaving India* In the tight-knit community known as Heaven, a ramshackle slum hidden between luxury high-rises in Bangalore, India, five girls on the cusp of womanhood forge an unbreakable bond. Muslim, Christian, and Hindu; queer and straight; they are full of life, and they love and accept one another unconditionally. Whatever they have, they share. Marginalized women, they are determined to transcend their surroundings. When the local government threatens to demolish their tin shacks in order to build a shopping mall, the girls and their mothers refuse to be erased. Together they wage war on the bulldozers sent to bury their homes, and, ultimately, on the city that

wishes that families like them would remain hidden forever. Elegant, poetic, and vibrant, *A People's History of Heaven* takes a clear-eyed look at adversity and geography--and dazzles in its depiction of these women's fierceness and determination not just to survive, but to triumph.

The Absorbent Mind - Maria Montessori 1995

A leading educator discusses the importance of the first six years to a child's normal physical and emotional development

Wooden on Leadership - John Wooden 2005-04-26

A Wall Street Journal Bestseller
A compelling look inside the mind and powerful leadership methods of America's coaching legend, John Wooden "Team spirit, loyalty, enthusiasm, determination. . . . Acquire and keep these traits and success should follow." --Coach John Wooden
John Wooden's goal in 41 years of coaching never changed; namely, to get maximum effort and peak performance from each of his players in the manner that best

served the team. Wooden on Leadership explains step-by-step how he pursued and accomplished this goal. Focusing on Wooden's 12 Lessons in Leadership and his acclaimed Pyramid of Success, it outlines the mental, emotional, and physical qualities essential to building a winning organization, and shows you how to develop the skill, confidence, and competitive fire to "be at your best when your best is needed"--and teach your organization to do the same. Praise for Wooden on Leadership: "What an all-encompassing Pyramid of Success for leadership! Coach Wooden's moral authority and brilliant definition of success encompass all of life. How I admire his life's work and concept of what it really means to win!" --Stephen R. Covey, author, *The 7 Habits of Highly Successful People* and *The 8th Habit: From Effectiveness to Greatness* "Wooden On Leadership offers valuable lessons no matter what your endeavor. 'Competitive

Greatness' is our goal and that of any successful organization. Coach Wooden's Pyramid of Success is where it all starts." - Jim Sinegal, president & CEO, Costco

Latin Palaeography - Bernhard Bischoff 1990-04-12

This work, by the greatest living authority on medieval palaeography, offers the most comprehensive and up-to-date account in any language of the history of Latin script. It also contains a detailed account of the role of the book in cultural

history from antiquity to the Renaissance, which outlines the history of book illumination. Designed as a textbook, it contains a full and updated bibliography. Because the volume sets the development of Latin script in its cultural context, it also provides an unrivalled introduction to the nature of medieval Latin culture. It will be used extensively in the teaching of latin palaeography, and is unlikely to be superseded.

Digital Education at School in Europe - 2019

This Eurydice report sheds light on two different but

complementary perspectives of digital education: the development of digital competences relevant to learners and teachers on the one hand, and the pedagogical use of technologies to support, improve and transform learning and teaching on the other. The report covers different areas of digital education starting by an overview of school curricula and learning outcomes related to digital competence. The development of teacher-specific competences during initial teacher education and throughout their career is addressed as well as the assessment of students' digital competences and the use of digital technologies for assessment. Finally, the report gives some insight into current national strategies and policies on digital education at school. The annexes add specific information by country, on school curricula, teacher competence frameworks, top-level strategies and agencies supporting digital education at school. The report covers

digital education at primary and general secondary levels for the school year 2018/19 in all 28 EU Member States, as well as Albania, Bosnia and Herzegovina, Switzerland, Iceland, Liechtenstein, Montenegro, North Macedonia, Norway, Serbia and Turkey, 43 education systems in total.

Dr. Fry's how to Teach

Reading - Edward Bernard Fry 1999

Offers tips and advice to educators on how to improve reading ability of children or adults up to a 5th grade level. [The Rise and Fall of Prussia](#) - Sebastian Haffner 2019-08-16 Sebastian Haffner regarded himself as “a Prussian with a British passport.” In this overview of Prussia’s 170-year history as an independent state, he depicts Prussia’s evolution from a sensational 18th century success story – “a state based on law, one of the first in Europe” – to its absorption into the Third Reich where “the rule of law was the first thing that Hitler abolished.” In this succinct and readable book, Haffner argues

that Hitler’s racial and nationality policy was the opposite of Prussia’s and Hitler’s political style, the very opposite of Prussian. “In his short book *The Rise and Fall of Prussia* Haffner combines a critical examination with a declaration of love for a state which always lived beyond its means ... but which managed to combine material poverty with intellectual grandeur.” — Michael Stürmer, *Welt am Sonntag* “Haffner sees Prussia’s history as the 'tragedy of a purely rational state'. An agglomeration of arbitrary territories, it made a virtue of its artificiality, adapting to the enlightenment and then to romanticism, but finally also to nationalism, betraying the basis of its statehood and leading to its ultimate destruction.” — Chrisian Roth, *Akademische Blätter* “Haffner long regarded himself as a 'Prussian with a British passport'. He identified with Prussia and its achievements: general compulsory schooling (1717), the abolition of torture (1740),

the establishment of religious toleration (1740), Bismarck's welfare state (1883), the medical giants Virchow, Koch, von Behring, the intellectual giants Kant, von Humboldt and von Schlegel, and much more. At the end of his book he recounted the (often-ignored) expulsion of millions of Prussians from their homeland in 1945. 'It was an atrocity, the final atrocity of a war which had more than its share in atrocities, admittedly begun by Germany under Hitler.' His message is very relevant today, when he praises those expelled for rejecting revenge and having the courage to say, 'This is enough.'" — David Childs, The Independent

World Development Report 2019 - World Bank 2018-10-31 Work is constantly reshaped by technological progress. New ways of production are adopted, markets expand, and societies evolve. But some

changes provoke more attention than others, in part due to the vast uncertainty involved in making predictions about the future. The 2019 World Development Report will study how the nature of work is changing as a result of advances in technology today. Technological progress disrupts existing systems. A new social contract is needed to smooth the transition and guard against rising inequality. Significant investments in human capital throughout a person's lifecycle are vital to this effort. If workers are to stay competitive against machines they need to train or retool existing skills. A social protection system that includes a minimum basic level of protection for workers and citizens can complement new forms of employment. Improved private sector policies to encourage startup activity and competition can help countries compete in the digital age. Governments also need to ensure that firms pay their fair share of taxes, in part to fund this new social

contract. The 2019 World Development Report presents an analysis of these issues based upon the available evidence.

Language Is Music - Susanna Zaraysky 2009

Language is Music focuses on making learning foreign languages fun, easy and affordable for anyone with a desire to communicate effectively with people around the world. By applying over 100 simple tips to things you already do, such as listening to music or surfing the Web, you can experience the joy of "fluency" in any language without having to study abroad or spend money on private tutors. In *Language is Music*, Susanna Zaraysky masterfully shares her listening methods so that anyone can have fun learning any language. With over 100 tips and 100 free or low-cost Internet resources, you will learn how to use daily activities, such as watching T.V. or listening to music; conversation partners; and attendance at cultural events to become a masterful speaker

of any tongue. "Learning foreign languages is like learning to sing a song or play music," says self-made linguist Susanna Zaraysky and author of *Language is Music*. Zaraysky has what you might call "an ear" for languages, having used music to successfully learn English, Russian, French, Spanish, Italian, Portuguese, and Serbo-Croatian-all with excellent accents. Advance Praise for *Language is Music* "I love it! I think it will help people who want to learn, and those who are curious about additional language learning. Many people want to learn a language but are frightened, or disappointed by the courses they have taken. Reading *Language is Music* will encourage them to try again, on their own and with friendly supporters." -Dr. Elba Maldonado-Colon, Professor Department of Elementary Education Bilingual Program, San Jose State University LET IT JUST ROLL OFF YOUR TONGUE. With lyrical insight and solid experience, Susanna Zaraysky, author of *Language*

is Music, provides easy steps for learning a language. Gone are the boring, disconnected strategies that most of us remember from school. You've never learned a language this quickly and easily. Zaraysky's methods embody fun, connection, rhythm, and above all...music. -Suzanne Lettrick, M.Ed Educator and Founder of The Global Education and Action Network "Forget dictionaries and phrase books . . . Susanna Zaraysky's easy-to-use guide to language learning is indispensable for any serious language learner wanting to become fluent--not just conversationally proficient--in another language. Language is Music will teach you how to make language acquisition a part of your daily life, and to recreate the kind of total-immersion environment necessary for fluency. Highly recommended reading for aspiring polyglots. Pick up this book and you too will be all ears!" -Justin Liang, Japanese, Mandarin, Cantonese, Marshallese, intermediate Spanish Back in France, I spent

many years learning "academic" English in school. But I progressed much faster when I forced myself to listen to the BBC or not look at the subtitles when watching an American movie. I wish I had Susanna's book with me then. It's full of creative ideas and practical tips that are indispensable complements to the traditional methods of learning foreign languages -- and it's coming from someone you can trust, she speaks so many of them! -Philippe Levy, French native speaker This book is great. It showed me another aspect and a new approach of learning a language. I will put the book to good use. As a foreign English speaker, I spent many years at school learning English and did not make much progress. A lot of the tips that I read in this book, I learned them with time. However if I had read this book earlier, it would have made my life much easier and I would have saved so much time. I am going to apply the tips in Language is Music into learning a third language:

Spanish. This time, I am sure I will make huge progress much faster. Not only is Language is Music useful in acquiring a foreign language, but the resources and websites in the book are valuable for someone who wants to travel abroad. - Fabien Hsu, French native speaker

CLIL - Do Coyle 2010-04-01
CLIL (Content and Language Integrated Learning) has emerged since the millennium as a major trend in education. Written by Do Coyle, Philip Hood and David Marsh and drawing on their experience of CLIL in secondary schools, primary schools and English language schools across Europe, this book gives a comprehensive overview of CLIL. It summarises the theory which underpins the teaching of a content subject through another language and discusses its practical application, outlining the key directions for the development of research and practice. This book acknowledges the uncertainty many teachers feel about CLIL, because of the

requirement for both language and subject knowledge, while providing theoretical and practical routes towards successful practice for all.

Compasito - Nancy Flowers 2007-01-01

Living among other people, in their families and communities, children become aware from a very early age of questions

related to justice, and they search for the meaning of the world. By fostering an understanding of human rights, shaping opinion and developing attitudes, human rights education strongly supports this natural interest and learning process. This is what human rights education is about and this is what 'Compasito manual on human rights education for children' is for. 'Compasito' is a starting point for educators, teachers and trainers who are ready to deal with human rights education with children of 7-13 years. The book covers the key concepts of human rights and children's rights, and provides substantial theoretical background to 13 key human rights issues, such as democracy, citizenship, gender equality, environment, media, poverty, and violence. The 42 practical activities serve to engage and motivate children to recognise human rights issues in their own environment. They help children to develop critical thinking, responsibility and a

sense of justice, and help them learn how to take action to contribute to the betterment of their school or community. The manual also gives practical tips on how it can be used in various formal and non-formal educational settings.

Innovative Citizen Participation and New Democratic Institutions Catching the Deliberative
