Bannockburn Binding - Tracy Cooper-Posey
2011-12

In the early 23rd Century, vampires learned how to travel back in time, and created a time-tsunami that threatened life as we know it, until they corrected their mistake. They created the Chronometric Conservation Agency, which is tasked with preserving history and therefore protecting humanity's future. The Touring arm of the Agency offers trips back into the real past, with vampire guides, called travellers. When Natalia (Tally) Marta, vampire and traveller,

takes her client to visit the siege of Stirling Castle in 1314, she is caught and held hostage for ransom by Robert MacKenzie, a Bruce clansman. Rob finds himself drawn to the willful, stubborn and very different English lady he has captured and the relationship becomes an intimate, highly-charged sexual pairing. Swiftly, Tally and Rob realize their bond is more than sexual, that the emotions stirring their hearts are true. Christian Lee Hamilton, vampire, one of the last true southern gentlemen, and Tally's ex-lover, knows the 1314 time marker enough to jump back and help Tally return home. His arrival at Bannockburn adds complications, for Christian finds himself drawn to Rob MacKenzie as much as Tally is. But neither of them can stay in the past forever. To do so means certain death.

The Dictionary of Obscure Sorrows - John Koenig 2021-11-16

NEW YORK TIMES BESTSELLER “It’s undeniably thrilling to find words for our strangest feelings...Koenig casts light into lonely corners of human experience...An enchanting book. “ —The Washington Post A truly original book in every sense of the word, The Dictionary of Obscure Sorrows poetically defines emotions that we all feel but don’t have the words to

express—until now. Have you ever wondered about the lives of each person you pass on the street, realizing that everyone is the main character in their own story, each living a life as vivid and complex as your own? That feeling has a name: “sonder.” Or maybe you’ve watched a thunderstorm roll in and felt a primal hunger for disaster, hoping it would shake up your life. That’s called “lachesism.” Or you were looking through old photos and felt a pang of nostalgia for a time you’ve never actually experienced. That’s “anemoia.” If you’ve never heard of these terms before, that’s because they didn’t exist until John Koenig set out to fill the gaps in our language of emotion. The Dictionary of Obscure Sorrows “creates beautiful new words that we need but do not yet have,” says John Green, bestselling author of *The Fault in Our Stars*. By turns poignant, relatable, and mind-bending, the definitions include whimsical etymologies drawn from languages around the world, interspersed with otherworldly collages and lyrical essays

that explore forgotten corners of the human condition—from “astrophe,” the longing to explore beyond the planet Earth, to “zenosyne,” the sense that time keeps getting faster. The Dictionary of Obscure Sorrows is for anyone who enjoys a shift in perspective, pondering the ineffable feelings that make up our lives. With a gorgeous package and beautiful illustrations throughout, this is the perfect gift for creatives, word nerds, and human beings everywhere.

Strangers in Blood - Jennifer S. H. Brown
1996-01-01

For two centuries (1670-1870), English, Scottish, and Canadian fur traders voyaged the

myriad waterways of Rupert's Land, the vast territory chartered to the Hudson's Bay Company and later splintered among five Canadian provinces and four American states. The knowledge and support of northern Native peoples were critical to the newcomer's survival and success. With acquaintance and alliance came intermarriage, and the unions of European traders and Native women generated thousands of descendants. Jennifer Brown's *Strangers in Blood* is the first work to look systematically at these parents and their children. Brown focuses on Hudson's Bay Company officers and North West Company wintering partners and clerks—those whose relationships are best known from post journals, correspondence, accounts, and wills. The durability of such families varied greatly. Settlers, missionaries, European women, and sometimes the courts challenged fur trade marriages. Some officers' Scottish and Canadian relatives dismissed Native wives and "Indian" progeny as illegitimate. Traders who took these

ties seriously were obliged to defend them, to leave wills recognizing their wives and children, and to secure their legal and social status-to prove that they were kin, not "strangers in blood." Brown illustrates that the lives and identities of these children were shaped by factors far more complex than "blood." Sons and daughters diverged along paths affected by gender. Some descendants became Métis and espoused Métis nationhood under Louis Riel. Others rejected or were never offered that course—they passed into white or Indian communities or, in some instances, identified themselves (without prejudice) as "half breeds." The fur trade did not coalesce into a single society. Rather, like Rupert's Land, it splintered, and the historical consequences have been with us ever since.

The Evolution of Modern Orchestration - Louis Adolphe Coerne 2018-09-21

Reproduction of the original: *The Evolution of Modern Orchestration* by Louis Adolphe Coerne
City of Capital - Bruce G. Carruthers
1999-12-19

"While many have examined how economic interests motivate political action, Bruce Carruthers explores the reverse relationship by

focusing on how political interests shape a market. He sets his inquiry within the context of late Stuart England, when an active stock market emerged and when Whig and Tory parties vied for control of a newly empowered Parliament. Probing such connections between politics and markets at both institutional and individual levels, Carruthers ultimately argues that competitive markets are not inherently apolitical spheres guided by economic interest but rather ongoing creations of social actors pursuing multiple goals." -- BACK COVER.

A Mercy - Toni Morrison 2009-08-11

A powerful tragedy distilled into a small masterpiece by the Nobel Prize-winning author of *Beloved* and, almost like a prelude to that story, set two centuries earlier. Jacob is an Anglo-Dutch trader in 1680s United States, when the slave trade is still in its infancy. Reluctantly he takes a small slave girl in part payment from a plantation owner for a bad debt. Feeling rejected by her slave mother, 14-year-

old Florens can read and write and might be useful on his farm. Florens looks for love, first from Lina, an older servant woman at her new master's house, but later from the handsome blacksmith, an African, never enslaved, who comes riding into their lives . . . At the novel's heart, like *Beloved*, it is the ambivalent,

disturbing story of a mother and a daughter - a mother who casts off her daughter in order to save her, and a daughter who may never exorcise that abandonment.
