Paths to the River Bank - Kenneth Grahame
1983

Counselling for Toads - Robert de Board
2008-02-21

'Toad', the famous character in Kenneth Grahame's *The Wind in the Willows* is in a very depressed state and his good friends Rat, Mole and Badger, are 'worried that he might do something silly'... First they nursed him. Then they encouraged him. Then they told him to pull himself together... Finally, Badger could stand it no longer. That admirable animal, though long on exhortation, was short on patience. 'Now look here Toad, this can go on no longer', he said sternly. 'There is only one thing left. You must have counselling!' Robert de Board's engaging

account of Toad's experience of counselling will capture the imagination of the growing readership of people who are interested in counselling and the counselling process. Written as a real continuation of life on the River Bank, Toad and his friends come to life all over again. Heron, the counsellor, uses the language and ideas of transactional analysis as his counselling method. Through the dialogues which make up the ten sessions, or chapters of the book, Toad learns how to analyse his own feelings and develop his emotional intelligence. He meets his 'rebellious child' and his 'adult' along the way, and by the end of the book, as debonair as ever he was, is setting out on a completely new adventure. As readers learn about Toad, so they can learn about themselves and be encouraged to take the path of psychological growth and development. Best-selling author, Robert de Board says: 'Toad's experiences are based on my own experiences of counselling people over a period of twenty years. *Counselling for Toads* is

really an amalgamation of the many counselling sessions I have held and contains a distillation of the truths I have learnt from practice.'

Appropriate for anyone approaching counselling for the first time, whether as a student or as a client, or for the professional counsellor looking for something to recommend to the hesitant, *Counselling for Toads* will appeal to both children and adults of all ages.

What to Do When I'm Gone - Suzy Hopkins
2018-04-03

A mother's advice to her daughter--a guide to daily living, both practical and sublime--with full-color illustrations throughout. One sleepless night while she was in her early twenties, illustrator/writer Hallie Bateman had a painful

realization: her mom would die, and after she died she would be gone. The prospect was devastating, and also scary--how would she navigate the world without the person who gave her life? She thought about all the motherly advice she would miss--advice that could help her through the challenges to come, including the ordeal of losing a parent. The next day, Hallie asked her mother, writer Suzy Hopkins, to record step-by-step instructions for her to follow in the event of her mom's death. The list began: "Pour yourself a stiff glass of whiskey and make some fajitas" and continued from there, walking Hallie through the days, months, and years of life after loss, with motherly guidance and support, addressing issues great and small--from choosing a life partner to baking a quiche. The project became a way for mother and daughter to connect with humor, openness, and gratitude. It led to this book. Combining Suzy's wit and heartfelt advice with Hallie's quirky and colorful style, *What to Do When I'm Gone* is the

illustrated instruction manual for getting through life without one's mom. It's also a poignant look at loss, love, and taking things one moment at a time. By turns whimsical, funny, touching, and above all pragmatic, it will leave readers laughing and teary-eyed. And it will spur conversations that enrich family members' understanding of one another.

Modern Trends in Hypnosis - David Waxman

2012-12-06

The 9th International Congress of Hypnosis and Psychosomatic Medicine expresses the continuity in the effort to gain scientific knowledge of hypnosis and scientific status for it, ever since the 1st International Congress for Experimental and Therapeutic Hypnotism was held in Paris in 1889, attended by many of the best-remembered psychiatrists and psychologists of the day - men such as Babinski, Bernheim, Binet, Delboeuf, Freud, James, Lombroso, F. W. H. Myers, Ribot, and many others. The continuity was broken by the period of reduced interest in hypnosis between the time of the 2nd International Congress for Hypnotism in Paris in 1900, and the revival of interest shown by the 3rd International Congress for Hypnosis and Psychosomatic Medicine in Paris in 1965. Since then, the Congresses have met more regularly, making the one of which this is the report, the 9th. The programs of these Congresses have become

increasingly rich through the years, with many of the older problems still with us but now studied more dispassionately in the light of new knowledge and new scientific methods in the design of investigations and the validation of scientific findings.

Stuff That Sucks - Ben Sedley 2017-03-01

Sometimes everything sucks. This unique, illustrated guide will help you move past negative thoughts and feelings and discover what truly matters to you. If you struggle with negative thoughts and emotions, you should know that your pain is real. No one should try to diminish it. Sometimes stuff really does suck and we have to acknowledge it. Worry, sadness, loneliness, anger, and shame are big and important, but they can also get in the way of what really matters. What if, instead of fighting your pain, you realized what really matters to you—and put those things first in life? If you did that, maybe your pain wouldn't feel so big anymore. Isn't it worth a try? **Stuff That Sucks**

offers a compassionate and validating guide to accepting emotions, rather than struggling against them. With this book as your guide, you'll learn to prioritize your thoughts, feelings, and values. You'll figure out what you care about the most, and then start caring some more! The skills you'll learn are based on acceptance and commitment therapy (ACT). Yes, there are a few written exercises, but this isn't a workbook. It's a journey into the stuff that sucks, what makes that sucky stuff suck even more, and how just a few moments each day with the stuff that matters will ultimately transform the stuff that sucks into stuff that is just stuff. Make sense? Maybe you want to be more creative? Or maybe you simply want to do better in school or be a better friend? This book will show you how to focus on what you really care about, so that all that other sucky stuff doesn't seem so, well, sucky anymore.

The Black Jacobins - C.L.R. James 1989-10-23

A classic and impassioned account of the Haitian Revolution—the first revolution in the Third World and the model for the liberation movements from Africa to Cuba. “One of the seminal texts about the history of slavery and abolition. . . . Provocative and empowering.”

—The New York Times Book Review This powerful, intensely dramatic book is the definitive account of the Haitian Revolution of 1794-1803, a revolution that began in the wake of the Bastille. It is the story of the French colony of San Domingo, a place where the brutality of master toward slave was legendary. And it is the story of a barely literate slave named Toussaint L'Ouverture, who led the black people of San Domingo in a successful struggle against successive invasions by overwhelming French, Spanish, and English forces and in the process helped form the first independent nation in the Caribbean.

reptile in the wild and in captivity, Rivas delves into the biology, behavior, demography, reproductive habits, and diet of the anaconda, as well as issues relating to its conservation. How to Change Your Mind - Michael Pollan

2018-05-15

“Pollan keeps you turning the pages . . . cleareyed and assured.” —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave

investigation into the medical and scientific revolution taking place around psychedelic drugs--and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about

these mysterious drugs from the myths that have surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's "mental travelogue" is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives.

[An Introduction to Transactional Analysis](#) - Phil Lapworth 2011-06-20

This thoroughly revised edition of *Transactional*

Analysis Counselling introduces the theory and practice of TA - which integrates cognitive behavioural and psychodynamic theories within a humanistic philosophy - from a unique relational perspective. While most TA books focus on one field, this approach demonstrates the benefits of TA across a wide variety of helping settings, business and management, education and coaching as well as counselling. Case studies from a variety of contexts bring TA to life for trainees in any of these disciplines, and the accessible, engaging writing style makes difficult concepts understandable for undergraduates and postgraduates alike. Bringing their book into the twenty-first century, expert authors Phil Lapworth and Charlotte Sills provide a brief history of TA followed by individual chapters on the concepts and techniques used. Each chapter is devoted to one concept and includes a detailed definition and description, and suggestions for application in practice. Exercises for student, practitioner and

client, boxed summaries, diagrams, checklists and sources of further reading make this the ideal text for use in training. This book is an essential companion for those embarking on specialist TA courses or studying TA as part of wider training, while those who want simply to integrate TA into their work with people can dip into it as suits their needs.

Dibs presents abnormal social behavior by continuously isolating himself, rarely speaking, and physically lashing out at those around him. When Axline first meets Dibs's

parents, they describe her as their son's last hope. The book details the interactions between Dibs and Axline and utilizes actual session transcripts for dialogue.

Satanic Feminism - Per Faxneld 2017-08-24

According to the Bible, Eve was the first to heed Satan's advice to eat the forbidden fruit and thus responsible for all of humanity's subsequent miseries. The notion of woman as the Devil's accomplice is prominent throughout Christian history and has been used to legitimize the subordination of wives and daughters. In the nineteenth century, rebellious females performed counter-readings of this misogynist tradition. Lucifer was reconceptualized as a feminist liberator of womankind, and Eve became a heroine. In these reimaginings, Satan is an ally in the struggle against a tyrannical patriarchy supported by God the Father and his male priests. Per Faxneld shows how this Satanic feminism was expressed in a wide variety of nineteenth-century literary texts,

autobiographies, pamphlets, newspaper articles, paintings, sculptures, and even artifacts of consumer culture like jewelry. He details how colorful figures like the suffragette Elizabeth Cady Stanton, gender-bending Theosophist H. P. Blavatsky, author Aino Kallas, actress Sarah Bernhardt, anti-clerical witch enthusiast Matilda Joslyn Gage, decadent marchioness Luisa Casati, and the Luciferian lesbian poetess Renée Vivien embraced these reimaginings. By exploring the connections between esotericism, literature, art and the political realm, Satanic Feminism sheds new light on neglected aspects of the intellectual history of feminism, Satanism, and revisionary mythmaking.

A New Significance - Clyde A. Milner II 1996-10-24

Nomura on Asia and Asian Americans; Anne F. Hyde on cultural perceptions; David Rich Lewis on Native Americans; Susan Lee Johnson on men, women, and gender; and Qunitard Taylor on race and African-Americans. Each essay is accompanied by commentaries written by other top scholars, and the eminent historian Allan G. Bogue supplies a penetrating introduction.
